New Religions And The Nazis:

New Religions and the Nazis Karla O. Poewe, 2006 Looking at modern German paganism as well as the established Church Poewe reveals that the new religions founded in the pre Nazi and Nazi years especially Jakob Hauer's German Faith Movement would be a model for how German fascism distilled aspects of religious doctrine into political extremism BOOK

JACKET New Religions As Global Cultures Irving Hexham, Karla Poewe, 2018-02-12 Although the Great Anti Cult Crusade links new religious movements to dangerous cults brainwashing and the need for deprogramming Karla Poewe and Irving Hexham argue that many cults are the product of a dynamic interaction between folk religions and the teachings of traditional world religions Drawing on examples from Africa the United States Asia and Europe they suggest that few new religions are really new Most draw on rich if localized cultural traditions that are shaped anew by the influence of technological change and international linkages With the widespread loss of belief in biblical mythology in the nineteenth century new mythologies based on science and elements derived from various non Western religious traditions emerged leading to the growth and popularity of new religions and cults

Religion und Gesellschaft Friedrich Wilhelm Graf, 2007 Das Thema Religion erfreut sich gegenwartig grosser Aufmerksamkeit Lange Zeit herrschte in der Offentlichkeit die Meinung vor religiose Glaubenswelten spielten fur das Selbstverstandnis moderner Gesellschaften keine Rolle mehr Am Anfang des 21. Jahrhunderts ist das Religiöse jedoch wieder zu einem wichtigen Thema offentlicher Debatten und interkultureller Anerkennungskampfe geworden Vom Streit um das Kruzifix in offentlichen Schulen über das Kopftuch muslimischer Lehrerinnen bis hin zu Fragen der rechtlichen Vertretung von kleineren Glaubensgemeinschaften an Fragen der offentlichen Prasenz von Religion scheiden sich die Geister Aber war die Religion in Europa jemals abwesend Der Band fragt nach dem sich wandelnden Stellenwert von Religion in den europaischen Gesellschaften des 20. Jahrhunderts in Ost wie West in der Zeit vor 1945 und danach Historiker Theologen und Religionswissenschaftler behandeln in systematischen Analysen und Fallbeispielen die Austauschprozesse zwischen dem Religiösen und seiner jeweiligen gesellschaftlichen Umgebung Entwickelt werden Leitlinien und Perspektiven für eine übergreifende Religionsgeschichte

Europas im 20. Jahrhundert in dem die Religion stets ein zentraler Faktor politisch gesellschaftlichen Wandels geblieben ist

Zerstrittene »Volksgemeinschaft« Manfred Gailus, Armin Nolzen, 2011-09-14 In 1933 more than 95% of the German population were members of one of the two major Christian religions. This picture did not change dramatically throughout the entire 12 year reign of the Third Reich. This is all the more surprising in light of the fact that at the same time a large proportion of the German population also belonged to some Nazi organization. Apparently during this period on some intellectual religious level these two irreconcilable roles of being a politically devout National Socialist and a conventional Christian were able to coexist side by side. This volume examines which forms this coexistence took on the changes it experienced and the conflicts it created. It also explores the question whether the religious situation of that day and age can be reduced solely to a struggle between Church and State of the two major religious faiths. Between Occultism and Nazism

Peter Staudenmaier, 2014-04-03 The relationship between Nazism and occultism has been an object of fascination and speculation for decades. Peter Staudenmaier's Between Occultism and Nazism provides a detailed historical examination centered on the anthroposophist movement founded by Rudolf Steiner. Its surprising findings reveal a remarkable level of Nazi support for Waldorf schools, biodynamic farming and other anthroposophist initiatives even as Nazi officials attempted to suppress occult tendencies. The book also includes an analysis of anthroposophist involvement in the racial policies of Fascist Italy. Based on extensive archival research, this study offers rich material on controversial questions about the nature of esoteric spirituality and alternative cultural ideals and their political resonance. **Catholicism and the Roots of Nazism**

Derek Hastings, 2011 Derek Hastings illuminates an important and largely overlooked aspect of Nazi history revealing National Socialism's close early ties with Catholicism in the years immediately after World War I when the movement first emerged. Jacket Historische Religionswissenschaft Jörg Rüpke, 2007 Diese Einführung will anhand ausgewählter Beispiele den religionswissenschaftlichen Zugriff auf geschichtliche Befunde und die Bedeutung der Religionsgeschichte für Religionswissenschaft anschaulich machen. Zu Beginn werden religionsgeschichtliche Texte und Medien neu in den Blick genommen. Im zweiten Teil stehen religiöses Handeln, Rituale und die Frage der Interpretation im Mittelpunkt. Der dritte Teil widmet sich organisatorischen Aspekten von Religion. Abschliessend wird der Begriff der Religionswissenschaft selbst historisiert. Die umfangreiche Auswahlbibliographie zur Religionswissenschaft erweitert das Spektrum der Themen und versteht sich als Führer vor allem für Studierende durch die weite religionswissenschaftliche Literaturlandschaft. 2006/2007, 2011-09-15 Die seit 1971 wieder erscheinende interdisziplinäre internationale

Return of the Swastika Koenraad Elst, 2015-02-18 Return of the Swastika presents a collection of essays by the Belgian historian and Indologist Koenraad Elst who is renowned for his writings on Indian history and Hindu nationalism The subjects of these essays are manifold ranging over issues pertaining to the Hindu Right communitarianism the European New Right immigration from Islamic countries fascism both historical and contemporary and European neo paganism Several of the essays also discuss the alleged connections between Hinduism and the more esoteric and pagan oriented elements of Nazism including a critique of the neo Nazi mystic Savitri Devi who attempted to depict Hitler as an avatar of the Hindu god Vishnu The running theme through all of these essays is Elst's exploration of how ideas and symbols are misrepresented by their opponents and those who seek to alter their meanings for their own purposes and an insistence on understanding things as they are rather than through their representation by others For Elst the Nazi appropriation of the swastika one of the most ancient symbols of human civilisation and a sacred sign of Hinduism and its subsequent demonisation by anti fascists in the West is a case in point The answer is not to ban the swastika and thus cede the right to define it to those who misuse it but rather to insist on its actual meaning allowing it to be reborn and to flourish freely once again

The Scientification of the "Jewish Question" in Nazi Germany Horst Junginger, 2017-03-20 The Scientification of the Jewish Question in Nazi Germany describes the attempt of a considerable number of German scholars to counter the vanishing influence of religious prejudices against the Jews with a new antisemitic rationale As anti Jewish stereotypes of an old fashioned soteriological kind had become dysfunctional under the pressure of secularization a new more objective explanation was needed to justify the age old danger of Judaism in the present In the 1930s a new research field called Judenforschung Jew research emerged Its leading figures amalgamated racial and religious features to verify the existence of an everlasting Jewish problem Along with that they offered scholarly concepts for its solution

Transcultural Encounters between Germany and India Joanne Miyang Cho, Eric Kurlander, Douglas T McGetchin, 2013-12-17 Providing a comprehensive survey of cutting edge scholarship in the field of German Indian and South

Asian Studies the book looks at the history of German Indian relations in the spheres of culture politics and intellectual life Combining transnational post colonial and comparative approaches it includes the entire twentieth century from the First World War and Weimar Republic to the Third Reich and Cold War era The book first examines the ways in which nineteenth century Indomania figured in the creation of both German national identity and modern German scholarship on the Orient and it illustrates how German encounters with India in the Imperial era alternately destabilized and reinforced the orientalist capitalist and nationalist underpinnings of German modernity Contributors discuss the full range of German responses to India and South Asian perceptions of Germany against the backdrop of war and socio political revolution as well as the Third Reich s ambivalent perceptions of India in the context of racism religion and occultism The book concludes by exploring German Indian relations in the era of decolonization and the Cold War Employing a diverse array of interdisciplinary approaches to understanding German Indian encounters over the past two centuries this book is of interest to students and scholars of Germany India Europe and Asia as well as history political science anthropology philosophy comparative literature and religious studies

Nazi Occultism Stéphane François, 2023-03-14 Nazi Occultism provides a serious scholarly study of a topic that is often marred by sensationalism and misinformation The Morning of the Magicians by Pauwels and Bergier 1960 gave rise to the idea that a secret society with wide powers the Thule society was the hidden and ignored centre of Nazism The influence of this very real small group is however only a fantasy a myth The author a historian specializing in neo Nazism looks back on this speculative construction its origins its ideological tinkering and the practices which have succeeded in forming a sort of radical and sulphurous counterculture which has created a fascination with esotericism and Nazism and the SS To better understand it he also paints a portrait of some of the authors who contributed to this extremist subculture such as the Italian esotericist Julius Evola the Argentine anthropologist Jacques Marie de Mahieu Chilean neo Nazi Miguel Serrano and the writer Jean Paul Bourre This book will appeal to scholars researchers and activists as well as general readers with an interest in the history of Nazism and the occult

Eranos Hans Thomas Hakl, 2014-09-11 Every year since 1933 many of the world s leading intellectuals have met on Lake Maggiore to discuss the latest developments in philosophy history art and science and in particular to explore the mystical and symbolic in religion The Eranos Meetings named after the Greek word for a banquet where the guests bring the food constitute one of the most important gatherings of scholars in the twentieth century The book presents a set of portraits of some of the century s most influential thinkers all participants at Eranos Carl Jung Erich Neumann Mircea Eliade Martin Buber Walter Otto Paul Tillich Gershom Scholem Herbert Read Joseph Campbell Erwin Schrodinger Karl Kereyni D T Suzuki and Adolph Portmann The volume presents a critical appraisal of the views of these men how the exchange of ideas encouraged by Eranos influenced each and examines the attraction of these esotericists towards authoritarian politics

World Religions and Cults
Volume 3 Bodie Hodge, Roger Patterson, 2016-11-30 This final book in the series focuses on the atheistic or humanistic type

of religions It would be one of the most valuable for the church in the Western World where anti god and pro evolution religions are beginning to explode for it was written to refute those religions and show how they fail Unlike most books on world religions this title dives into the secular humanistic religions The book starts with God s Word as the absolute authority In doing so God becomes our guide to refute false religions Humanistic religions are all around us and we need to be able to spot their tenets and oppose them instead of allowing them to subtly infiltrate our Christianity and undermine us from within We need to know how to refute these humanistic religions We need to know how to effectively present the gospel to people who have been deceived by humanistic religions

A Companion to Nazi Germany Shelley Baranowski, Armin Nolzen, Claus-Christian W. Szejnmann, 2018-04-03 A Deep Exploration of the Rise Reign and Legacy of the Third Reich For its brief existence National Socialist Germany was one of the most destructive regimes in the history of humankind Since that time scholarly debate about its causes has volleyed continuously between the effects of political and military decisions pathological development or modernity gone awry Was terror the defining force of rule or was popular consent critical to sustaining the movement Were the German people sympathetic to Nazi ideology or were they radicalized by social manipulation and powerful propaganda Was the Final Solution the motivation for the Third Reich s rise to power or simply the outcome A Companion to Nazi Germany addresses these crucial questions with historical insight from the Nazi Party s emergence in the 1920s through its postwar repercussions From the theory and context that gave rise to the movement through its structural cultural economic and social impacts to the era s lasting legacy this book offers an in depth examination of modern history s most infamous reign Assesses the historiography of Nazism and the prehistory of the regime Provides deep insight into labor education research and home life amidst the Third Reich s ideological imperatives Describes how the Third Reich affected business the economy and the culture including sports entertainment and religion Delves into the social militarization in the lead up to war and examines the social and historical complexities that allowed genocide to take place Shows how modern day Germany confronts and deals with its recent history Today s political climate highlights the critical need to understand how radical nationalist movements gain an audience then followers then power While historical analogy can be a faulty basis for analyzing current events there is no doubt that examining the parallels can lead to some important questions about the present Exploring key motivations environments and cause and effect this book provides essential perspective as radical nationalist movements have once again reemerged in many parts of the world
