Ideologies and the Corruption of Thought Joseph Gabel, 1997-01-01 Thirty five years ago Joseph Gabel published a modern masterpiece which in 1975 appeared in English as *False Consciousness An Essay on Reification* Combining his special knowledge of existential psychiatry axiology Marxism and political history Gabel proposed the utterly novel idea that victims of serious mental disturbances especially paranoia and schizophrenia reproduce those distorted thought patterns commonly associated with ideological beliefs at the collective level Such beliefs initially had been laid bare in the 1920s by Gabel's intellectual progenitors Karl Mannheim and George Lukacs Gabel's remarkable innovation was to transfer the private crisis of mental collapse into the analytic framework previously reserved for ideological critique making him an expert on what was later called the micro macro problem *Ideologies and the Corruption of Thought* includes Gabel's essays over the last 40 years characteristically treating micro and macro theoretical matters simultaneously Originally written in French and German they have been recast in idiomatic English and bibliographically updated Using a unique mode and vocabulary of analysis Gabel offers theoretical investigations of McCarthyism and Stalinism original and more recent types as well as Althusser Orwell and Jonathan Swift in his capacity as a psychiatric theorist He also explores anti Zionism anti Semitism and a fascinating case study of a paranoid who regarded himself as the pope In addition this volume includes a range of general commentaries on ideological thought utopianism and false consciousness This rich feast of social and political analysis and theory illuminates a range of contemporary concerns racism Utopian fantasy ethnocentrism anti Semitism the interplay of social structure and mental illness and ideological transformations of social life which only Gabel's unique mixture of the clinical and the political could achieve It will be studied with interest by all theorists and politically alert readers in the social sciences philosophy and related fields of study

Mediations of Social Life in the 21st Century Harry F.

Dahms, 2014-11-07 The essays included in this volume illuminate mediations of the individual society relationship from a variety of angles both explicitly and implicitly They highlight the need to consider the consequences of choices made by collective decision makers politicians and leaders of organizations

False Prophets Leo Lowenthal, 2011-12-31 The studies in this volume deal with problems of authoritarianism and anti Semitism Lowenthal's book length contribution *Prophets of Deceit* which begins this collection is a classic of political psychology This research study is followed by an essay *Terror's Atomization of Man* Lowenthal uses this material for a theory of the psychological mechanisms operative under terrorist conditions and their significance for contemporary society

Revisiting the Frankfurt School David Berry, 2016-04-08

What has become known as the Frankfurt School is often reduced to a small number of theorists in media communication and cultural studies Challenging this limitation *Revisiting The Frankfurt School* introduces a wider theoretical perspective by introducing critical assessments on a number of writers associated with the school that have been mostly marginalized from debate This book therefore expands our understanding by addressing the writings of intellectuals who were either members

of the school or were closely associated with it but often neglected It thus brings together the latest research of an international team of experts to examine the work of figures such as the social psychologist Erich Fromm the philosophy of Siegfried Kracauer the writer on media and communication Leo Lowenthal introducing Hans Magnus Enzenberger to the debate whilst also shedding new light on the work of Max Horkheimer Theodor Adorno Herbert Marcuse Walter Benjamin and Jürgen Habermas A critical reassessment of the contributions of the Frankfurt School and its associates to cultural media and communication studies as well as to our modern understanding of new media technology and debate within the public sphere this book will appeal to those with interests in sociology philosophy social psychology social theory media and communication and cultural studies

Communication in Society Leo Löwenthal, **Dangerous Thinking in the Age of the New Authoritarianism** Henry A. Giroux, 2015-11-17 Giroux probes the depth and range of forces pushing the United States into a new form of authoritarianism one that connects the Orwellian surveillance state with the forms of ideological control made famous by Aldous Huxley Addressing how neoliberalism or the new market fundamentalism is shaping a range of registers from language and memory to youth and higher education Giroux explores how education in a variety of spheres is transformed into a type of miseducation perpetuated through what he calls a disimagination machine one that reproduces the present by either distorting or erasing the past But Giroux is not content to focus on how matters of politics subjectivity power and desire are colonized through forms of miseducation he is also concerned with the educative nature of politics as the practice of freedom and how the emphasis on critique must be matched by a politics and discourse of resistance hope and possibility This becomes particularly evident in his chapters on Noam Chomsky and Howard Zinn Thinking Dangerously makes clear that at the heart of the struggle for a radical democracy is the reviving of the radical imagination as the basis for new forms of political and collective struggle Probing these issues through a series of interrelated essays and important interviews Giroux provides an accessible layered and sustained example of how thinking dangerously is central to and connected with the struggle over the radical imagination and the fight to fulfill the promise of a radical democracy

Prophets of Deceit Leo Löwenthal, Norbert Guterman, 2021-04-06 How

authoritarian and racist discourse functions A classic book that analyzes and defines media appeals specific to American pro fascist and anti Semite agitators of the 1940s such as the application of psychosocial manipulation for political ends The book details psychological deceits that ideologues or authoritarians commonly used The techniques are grouped under the headings Discontent The Opponent The Movement and The Leader The authors demonstrate repetitive patterns commonly utilized such as turning unfocused social discontent towards a targeted enemy The agitator positions himself as a unifying presence he is the ideal the only leader capable of freeing his audience from the perceived enemy Yet as the authors demonstrate he is a shallow person who creates social or racial disharmony thereby reinforcing that his leadership is needed The authors believed fascist tendencies in America were at an early stage in the 1940s but warned a time might come when Americans could and would be susceptible to the psychological manipulation of a rabble rouser A book once again relevant in the Trump era as made clear by Alberto Toscano s new introduction

The Bloomsbury Handbook of Literary and Cultural Theory Jeffrey R. Di Leo,2018-11-15 The Bloomsbury Handbook of Literary and Cultural Theory is the most comprehensive available survey of the state of theory in the 21st century With chapters written by the world s leading scholars in their field this book explores the latest thinking in traditional schools such as feminist Marxist historicist psychoanalytic and postcolonial criticism and new areas of research in ecocriticism biopolitics affect studies posthumanism materialism and many other fields In addition the book includes a substantial A to Z compendium of key words and important thinkers in contemporary theory making this an essential resource for scholars of literary and cultural theory at all levels

Social Structure and Voting in the United States Robert B. Smith,2016-03-09 This book analyzes practical and moral influences on voting decisions Undermining the widespread assumption that economic self interest is the key determinant of voting choices it discovers that moral considerations rooted in religious traditions are often the more decisive This finding is confirmed through a close analysis of tangible problems such as child neglect and crime problems which one would expect to trouble practical voters Further this book suggests that political ideologies influence party affiliation rather than the other way around It defines four categories of states in terms of human development and income equality South Heartland postindustrial and balanced It then explains why political color red purple or blue and societal problems vary across these categories Voters moral ideologies it shows combine with a state s measure of income equality and human development to shape a state s readiness to pursue practical solutions to societal problems Finally it shows that moral ideologies of the religious right and authoritarianism two very different concepts are in fact intertwined empirically This book thus suggests that education a key driver of human development anti authoritarianism and deliberative voting should begin in preschools that are both nurturant and instructive

Late Fascism Alberto Toscano,2023-10-24 How do we understand the return of fascism today In a world shaken by ecological economic and political crises the forces of authoritarianism and reaction seem to have the upper hand How should we name map and respond to this state of affairs Late Fascism turns to theories of

fascism produced in the past century testing their capacity to illuminate our moment and challenging many of the commonplaces that debate on this extremely charged term devolves into It can be tempting for any contemporary assessment of fascism to reach for historical analogy Fascism is defined by returns and repetitions but it is not best approached in terms of steps and checklists dictated by a selective reading of Italian Fascism or National Socialism Rather than treating fascism as an unrepeatable phenomenon or identifying it with a settled configuration of European parties regimes and ideologies Toscano approaches fascism as a problem and a process one that is intimately linked to capitalism s demands for domination Drawing especially on Black radical and anti colonial theories of racial fascism Late Fascism makes clear the limits of identifying fascism simply with the political violence of bygone European regimes Developing anti fascist theory is a vital and urgent task From the Great Replacement to campaigns against critical race theory and gender ideology today s global far right is launching lethal panics about the threats to traditional political sexual and racial regimes Late Fascism allows us to rediscover some truly inspiring anti fascist thinkers rooted in their turn in largely anonymous collective practices of worldmaking against domination traditions of the oppressed that remain a resource for those set on dismantling the hierarchies and segregations that the partisans of Order and Tradition seek to revive and reimpose Understanding and Countering Fascist Movements Joan Braune,2023-12-22 This book is based on the premise that understanding fascism is crucial for defeating it Understanding and Countering Fascist Movements suggests fascism must be understood according to two dimensions First fascism is a social movement seeking power always already connected to sources of power Hence fascism cannot be defeated by policing it as a crime problem nor therapeutically treating it as a pathology of mental health Second fascists have cognitive and emotional needs they are seeking to fulfill through their participation in the movement but the presence of these motivations must be held in tension with the fact that fascists are responsible for their choices and that these individual motivations also exist in a wider social context of capitalism and systems of supremacy The book opens by examining some psychological elements of recruitment and disengagement from fascist movements before addressing broader social narratives concluding with the limitations of an approach that is grounded in the national security state that relies on individualized perpetrator centered interventions Rejecting centrist paradigms that see fascism as extremism or accelerationism Braune argues that fascism must be addressed in its specificity and uniqueness as an ideology and movement Ultimately she argues fascism can only be defeated by countervailing social movements that not only demand radical social change but offer alternative spaces of belonging community care and the search for meaning Understanding and Countering Fascist Movements is a philosophical contribution to antifascist theory and practice that will be appreciated by academics students and activists concerned about fascism today **Social Media Frenzies** Diana Stypinska,2025-10-16 This book examines the relation between agitation and social change in the digital context Focusing on the phenomenon commonly referred to as social media storms it conceptualizes digitalized agitation reflecting upon its transformative

potential and socio political effects Situating its analysis within the occidental context the book firstly elaborates on the modern sociopolitical uses of agitation addressing three of its key configurations revolutionary totalitarian and entrepreneurial Secondly it focuses on the contemporary applications of agitation exploring the workings of social media frenzies from the perspective of a moral and re activist entrepreneurship Examining the ways in which the increasing mediatization of entrepreneurial agitation established mimetic frenzy as a dominant subjective pre disposition of our times the book draws on a wide range of contemporary examples from conspiracy theories to online call outs It argues that social media frenzies emerge out of the false need to agitate and to be agitated contending that digital agitation is a source of compensatory intoxication functioning as today s opium of the people This book is of relevance to anyone concerned with social change It will be of particular use to academics postgraduates and advanced undergraduate students working in the areas of Sociology Media Cultural Studies and Politics

Twilight of the Social Henry A. Giroux, 2015-12-03 In *The Twilight of the Social* Henry A Giroux looks at the decline of social spaces which enable grievances to be dealt with and considers new ways in which citizens can create social spaces today After decades of neoliberalism today s young people lack a voice and are saddled with economic political and social conditions that have rendered them marginalised and ultimately disposable Giroux covers a broad range of topics from youth and the promise of new media technologies the economic Darwinism of globalisation and the need for a renewed democratic culture *The Twilight of the Social* is a compelling account of the erosion in recent decades of the very idea of the social in America and other societies

Politics and Resentment Lars Rensmann, Julius H. Schoeps, 2010-10-29 Democratic polities continue to be faced with politics of resentment The first comparative study of its kind this book rigorously examines the contemporary relevance of antisemitism and counter cosmopolitan resentments in the European Union and beyond

Apocalyptic Authoritarianism Assistant Professor School of the Environment Hanna E Morris, Hanna E. Morris, 2025 In *Apocalyptic Authoritarianism* media scholar Hanna E Morris reveals how national anxieties following the 2016 presidential election have shaped American news coverage of climate change in ways that severely limit how it has come to be known imagined and contended with Looking at climate change reporting across ideologically diverse U S news media outlets over the past decade the book traces how media creates an illusion of control in the present through nostalgic and heroic stories of the past Morris identifies a new mode of reactionary politics called apocalyptic authoritarianism to describe the post 2016 alignment of historically privileged figures united by a common enemy of the new New Left and a shared appeal to fears of total crisis Ultimately Morris calls for a robust and inclusive form of climate journalism and politics to set the nation on a path toward democratic and equitable responses to the climate crisis
