Nice Book Anything Vietnam Innovation Through Adversity:

Did Anything Good Come Out of the Vietnam War? Philip Steele, 2015-12-15 This compelling book makes readers think about the Vietnam War in a different way. It asks tough questions such as if there was any benefit to a war that not only killed millions but also divided America, split generations and created a rift between America and the rest of the world. With dynamic spreads featuring pictures and easy to follow text, this book will inspire readers not only to study history but also to ask the all important critical questions about the past so that we don't make the same mistakes.

Great Exit Projects on the Vietnam War and the Antiwar Movement Carolyn DeCarlo, 2019-07-15 The Vietnam War began an incredibly divisive moment in the United States as many Americans questioned whether the war was necessary and morally legitimate. In this instructive book, readers will examine important topics involving the Vietnam War and the anti-war movement through project-based learning. Step by step exit projects are provided as models for students to use and they inspire new creative investigative projects as well. Colorful photographs and informative sidebars further illustrate the importance of this historical movement on our politics today.

Cycles Bryan Cassady, 2021-10-26 Change the way you think about innovation and give yourself every chance of success. There are lots of books, courses and videos on innovation. They are fun and usually motivating but seldom deliver long term results. *Cycles* is a fun book but more importantly it explains how to innovate at every stage. Consistent winners are idea builders that make good or even mediocre ideas great over time. With *Cycles* you'll learn by doing how to grow ideas up to 6x faster while cutting risks by over 50%. This book brings together 4 years of research and the work of 22 innovation experts into a simple system with easy to use canvases and tools. The foundation of this system is thinking of idea building as an ongoing process of cycles. Some cycles are short and some are long. The best cycles include the ABCs of innovation: A Align, B Build Ideas, C Communicate and Check, S Systematically Improve. This system ties the theories and research from hundreds of books into something easy to understand and something you can do right now. If you want to be a better innovator, *Cycles* will change the way you think about innovation. More importantly with easy hands on tools, *Cycles* will make it easier to innovate faster while reducing risks. A straightforward and effective method that you can start applying right away.

ABOUT THE AUTHOR Bryan Cassady is a long time entrepreneur and has built successful businesses in six countries. His success rate is eight successful businesses from eleven tries. For more than ten years he has been teaching Innovation and Entrepreneurship at leading business schools around the world: KU Leuven, Solvay, EDHEC, led some of the world's largest and most successful accelerator programs: The Founder Institute and the European Innovation Academy and coached over 400 companies. He is currently working on the Global Entrepreneurship Alliance, a foundation being set up to train 1 million entrepreneurs by 2027.

Destroying Sanctuary
Sandra L. Bloom, Brian Farragher, 2010-10-28 For the last thirty years the nation's mental health and social service systems

have been under relentless assault with dramatically rising costs and the fragmentation of service delivery rendering them incapable of ensuring the safety security and recovery of their clients The resulting organizational trauma both mirrors and magnifies the trauma related problems their clients seek relief from Just as the lives of people exposed to chronic trauma and abuse become organized around the traumatic experience so too have our social service systems become organized around the recurrent stress of trying to do more under greater pressure they become crisis oriented authoritarian disempowered and demoralized often living in the present moment haunted by the past and unable to plan for the future Complex interactions among traumatized clients stressed staff pressured organizations and a social and economic climate that is often hostile to recovery efforts recreate the very experiences that have proven so toxic to clients in the first place Healing is possible for these clients if they enter helping protective environments yet toxic stress has destroyed the sanctuary that our systems are designed to provide This thoughtful impassioned critique of business as usual begins to outline a vision for transforming our mental health and social service systems Linking trauma theory to organizational function Destroying Sanctuary provides a framework for creating truly trauma informed services The organizational change method that has become known as the Sanctuary Model lays the groundwork for establishing safe havens for individual and organizational recovery The goals are practical improve clinical outcomes increase staff satisfaction and health increase leadership competence and develop a technology for creating and sustaining healthier systems Only in this way can our mental health and social service systems become empowered to make a more effective contribution to the overall health of the nation Destroying Sanctuary is a stirring call for reform and recovery required reading for anyone concerned with removing the formidable barriers to mental health and social services from clinicians and administrators to consumer advocates **Resilience** Steven M.
