Nice Book Chinese Outbound Tourism Advances Hospitality:

Chinese Outbound Tourism 2.0 Xiang (Robert) Li, 2016-02-03 Booming Mainland Chinese outbound travel is one of the most exciting phenomena in the world tourism industry's recent history. From 2000 to 2010, Chinese outbound travel increased at a compounded annual rate of 18.5 percent and it is forecasted that by 2020 China will generate approximately 100 million outbound trips a year, making China the fourth largest outbound travel market in the world.

The Hospitality and Tourism Industry in China Jinlin Zhao, 2018-06-27 Here is an insightful look into the great changes in the hospitality and tourism industry in China in recent years. The steady growth of the GDP in China, the increasing middle income population, lifestyle changes of the Chinese people, and fast infrastructure development (speed trains, airports, highways, and seaports) linking many mega cities, mid-level cities, and townships have all had a significant effect on the Chinese hospitality industry, which is booming in China. With much more money in their pockets, the Chinese are spending more than 60% of their disposable income on food and travel. International food and hotel chains have responded by increasing their presence in China, and in turn, new domestic restaurant and hotel chains have sprung up to compete for the business. With chapters by scholars from various universities in China and the United States, these issues and more are covered in this new volume. Readers will gain a true understanding of the current development of the Chinese hospitality and tourism industry.

Management Science in Hospitality and Tourism Muzaffer Uysal, Zvi Schwartz, Ercan Sirakaya-Turk, 2017-03-03 Management Science in Hospitality and Tourism is a timely and unique book focusing on management science applications. The first section of the book introduces the concept of management science application in hospitality and tourism and related issues to set the stage for subsequent sections. Section II focuses on management science applications with conceptual pieces, empirical applications, and best practices with examples coming from different parts of the world and settings. The last section ends with a chapter focusing on challenges and future research directions. This book goes beyond revenue management topics and presents a broad range of topics in management science applications as they relate to hospitality and tourism cases. Researchers and students in hospitality and tourism will find this book very useful since it contains chapters on data analytics, e-commerce, and technology, revenue and yield management, optimization methods, resource allocation, goal programming, dynamic programming, Markov chain models, trends analysis, and detection, measuring potential and attractiveness in tourism development, performance measures, and use of indices in hospitality and tourism, and more. There is a heightened interest in these areas of business applications in today's data-driven business environment, and this book addresses that interest. This book is the only comprehensive text on management science applications in hospitality and tourism. It will help managers and hospitality and tourism students as future managers to develop an in-depth understanding of the importance of data analysis, interpretation, and generating information and intelligence for decision making. It covers a broad range of applications representing different geographic regions of the world.
