This new agreement reflects many of the modern and up-to-date approaches within the international economic legal order that must now exist within a very different environment than that of the late eighties and early nineties when the World Trade Organization (WTO) was created. The book therefore explores many new features that were not present when the WTO or early RTAs were negotiated. It provides insights and lessons about new and important trade issues for the twenty-first century such as the latest approaches to the regulation of investment, twenty-first century services, and the emerging digital knowledge economy. In addition, this book provides new understandings of the latest RTA approaches of China and Australia. The book's contributors, all foremost experts on their subject matter within this field, explore the inclusion of many traditional trade and investment agreement features in the ChAFTA, showing their continuing relevance in modern contexts. *Field Guide to the Internet* Stephen L.
