Dutch Land-use Planning Barrie Needham, 2016-04-29 Dutch planning is widely known and admired for its ambitions and its achievements This book provides for the first time a comprehensive description and analysis in English of its full range of policies and practices It gives an up to date account of the principles written and unwritten behind the planning and in addition shows how the practice sometimes ignores those principles in order to achieve better results It describes the content of the policies the measures taken to realise them and the successes and failures The book is not uncritical of Dutch land use planning but the author values its strengths and believes that planning in other countries could learn from them These strengths arise in the continuing tension between the high ambitions of the Dutch planning and the ingenuity and pragmatism exercised in order to realise those ambitions

The New Dimensions of the European Landscapes R.H.G Jongman, 2005-05-09 The European Landscape is under stress of changing land use and a changing attitude of its users Globalization the disappearance of the iron curtain and the recent EU enlargement to 25 countries have changed the economic and environmental dimensions of Europe Europe is changing its face from a western and eastern part to one European Union and to fast connections between its centres of activity The rural and cultural heritage of Europe has to be

adapted to cope with this change However its landscape is worth to be conserved as well because it represents the European history in the same way as castles and churches It even more represents the history of the common people because it has been the tradition of the rural population that made these landscapes It cannot be prevented that Europe is changing and it is good that Europe adapts to the new dimensions of the world We in Europe have to define what we think is important and what must be conserved what can be adapted to be used for new functions and what can be abolished because it has no value These decisions will determine the new dimensions of the European landscapes The Frontis Workshop on the New Dimensions of the European Landscape was held on 10 12 June 2002 Wageningen University and Research Centre organized this workshop aiming to develop visions on the landscape in Europe its development and design in the future and to strengthen the international network in landscape planning Pyttersen's Nederlandse Almanak 2013 Alice Garritsen,2012-10-29 In de Pyttersen s Nederlandse Almanak worden in vogelvlucht particuliere overheids en semi overheidsorganisaties en instellingen beschreven die ten minste een supralokaal belang dienen en primair een not for profit doel nastreven De beschreven organisaties en instellingen staan geordend op werkgebied en worden ontsloten door een uitgebreid register U kunt de Pyttersen s Nederlandse Almanak ook online raadplegen met als voordeel dat diverse categorieën geselecteerd kunnen worden Voor meer informatie zie www.bsl.nl **Staatsblad van Nederlandisch Indië** ,1897
