Nederlandse Architecten 2 Dutch Architects 2:

Twentieth-century Architecture in the Netherlands Hans van Dijk, 1999 *Syntactic architecture and its consequences II* András Bárány, Theresa Biberauer, Jamie Douglas, Sten Vikner, 2020-12-30 This volume collects novel contributions to comparative generative linguistics that rethink existing approaches to an extensive range of phenomena domains and architectural questions in linguistic theory At the heart of the contributions is the tension between descriptive and explanatory adequacy which has long animated generative linguistics and which continues to grow thanks to the increasing amount and diversity of data available to us The chapters address research questions in comparative morphosyntax including the modelling of syntactic categories relative clauses and demonstrative systems Many of these contributions show the influence of research by Ian Roberts and collaborators and give the reader a sense of the lively nature of current discussion of topics in morphosyntax and morphosyntactic variation 20 Years 010 Hans Oldewarris, Peter de Winter, 2003 Published for 010 Publisher's twentieth anniversary in 2003 this volume celebrates the publishing vision of Hans Oldewarris and Peter de Winter 010's founders Besides hundreds of monographs by and about Dutch architects 010 has published books on architecture interior design photography industrial design graphic design and the visual arts Exhaustively annotated and illustrated 20 Years 010 provides not only the technical details of each book size format binding but also the authors editors photographers graphic designers and printers A brief description of the contents rounds off each entry Comprehensive indexes give insight into who contributed to which book and in what way In their introductory essay Ed Taverne and Cor Wagenaar give a picture of the practice of architectural publishing in the Netherlands during those years

Modern Architecture in Africa Antoni S. Folkers, Belinda A. C. van Buiten, 2019-07-22 This book offers unique insights into modern African architecture influenced by modern European architecture and at the same time a natural successor to existing site specific and traditional architecture It brings together the worlds of traditional site specific architecture with the Modernist Project in Africa which to date have only been considered in isolation The book covers the four architectural disciplines urban planning building technology building physics and conservation It includes an introduction with a historical outline and an analysis and comparison of a number of projects in various countries in Africa On the basis of examples drawn from practice the author documents and describes the hybrid architectural forms that have emerged from the confrontation and fusion with pre modern Western architecture and urban planning and in so doing he also narrates the history of African architecture **That City is Mine!** Cordula Rooijendijk, 2005 Annotation This thesis is about urban ideal images It is about dreams not fictitious beliefs but dreams that humankind can realize tomorrow It is about images from intellectuals pastry cooks urban planners and firemen About people who deeply care about their cities about their hopes frustrations anger and optimism They describe their ideals in city debates to gain support and try to eliminate those with different urban ideal images They grouse cuddle quarrel adore allies and blacken enemies But are they successful Do people change their urban

ideal images because of these discussions Does the local planning council change their plans because they conflict with ideals of citizens The answers can be found in this book This title can be previewed in Google Books <http://books.google.com/books/vid/ISBN9789056293826> Onno Greiner (1924-2010) Andrea Prins, 2016 Monografie over de idee n en het werk van de architect Onno Greiner 1924-2010 **Architecture & Sustainable Development (vol.2)** Magali Bodart, Arnaud Evrard, 2011-07 This book of Proceedings presents the latest thinking and research in the rapidly evolving world of architecture and sustainable development through 255 selected papers by authors coming from over 60 countries

Understanding Art Flavio Conti, Maria Cristina Gozzoli, 2014-09-19 Understanding Art is a two volume fully illustrated work that strives to explain and discuss four important periods in the history of western art the Romanesque Gothic Renaissance and Baroque It aims to create a sense of understanding recognition and appreciation of art by analysing within the four periods three distinct artistic genres painting sculpture and architecture Besides the excellence of the illustrations one of the great virtues of this book is its clear and concise explanations It is truly an excellent first stop for anyone embarking on a serious study of art or anyone wishing to refresh his or her memory of the facts about the art history of the western world Integrated Buildings Leonard R. Bachman, 2004-01-27 An anatomical study of building systems integration with guidelines for practical applications Through a systems approach to buildings Integrated Buildings The Systems Basis of Architecture details the practice of integration to bridge the gap between the design intentions and technical demands of building projects Analytic methods are introduced that illustrate the value benefit and application of systems integration as well as guidelines for selecting technical systems in the conceptual schematic and design development stages of projects Landmark structures such as Eero Saarinen s John Deere Headquarters Renzo Piano s Kansai International Airport Glenn Murcutt s Magney House and Richard Rogers s Lloyd s of London headquarters are presented as part of an extensive collection of case studies organized into seven categories Laboratories Offices Pavilions Green Architecture High Tech Architecture Airport Terminals Residential Architecture Advanced material is provided on methods of integration including an overview of integration topics the systems basis of architecture and the integration potential of various building systems An expanded case study of Ibsen Nelsen s design for the Pacific Museum of Flight is used to demonstrate case study methods for tracing integration through any work of architecture Visually enhanced with more than 300 illustrations diagrams and photographs Integrated Buildings The Systems Basis of Architecture is a valuable reference guide for architecture and civil engineering students as well as architects engineers and other professionals in the construction industry

Eco-architecture II Geoffrey Broadbent, C. A. Brebbia, 2008 This book contains papers presented at the second International Conference on Eco Architecture The original Conference was the first to be held worldwide on the subject of sustainable architecture in order to define what ECO ARCHITECTURE actually is i e Harmonisation between Architecture and Nature The subject has matured in the two years between conferences and the submitted papers can be categorised into

Ecological and Cultural Sensitivity Design with Nature Resource Conservation and Building Technology Design by Passive Systems Case Studies Rehabilitation and Adaptive Re use The affiliations of the authors whether in academia the professions or industry indicate the very wide international scope and the interdisciplinary nature of the subject **Architecture and the Housing Question** Can Bilsel, Juliana Maxim, 2022-06-29 Architecture and the Housing Question examines how the design and provision of housing around the world have become central both to competing political projects and to the architecture profession How have architects acting as housing experts helped alleviate or enforce class race and gender inequality What are the disciplinary implications of taking on shelter for the multitude as an architectural assignment and responsibility The book features essays in the historiography of architecture and the housing question and a collection of historical case studies from Belgium China France Ghana the Netherlands Kenya the Soviet Union Turkey and the United States The thematic organization of the collection interrogating housing expertise the state apparatus segregation and colonialism highlights the methodological questions that underpin its international outlook The book will appeal to students and scholars in architecture architectural history theory and urban studies **OECD e-Government Studies: Netherlands 2007** OECD, 2007-05-28 This comprehensive review of e government in the Netherlands examines such questions as whether the goal of reducing administrative burdens is sufficient in itself for e government to transform public administrations Further how can the public sector build partnerships across levels of government **Dictionary Catalog of the Art and Architecture Division** New York Public Library. Art and Architecture Division, 1975 [Southeast Asian Personalities of Chinese Descent](#) Leo Suryadinata, 2012 This is a bold project recording the lives of a particular group of Southeast Asians Most of the people whose biographies are included here have settled down in the ten countries that constitute the region Each of them has either self identified as Chinese or is comfortable to be known as someone of Chinese ancestry There are also those who were born in China or elsewhere who came here to work and do business including seeking help from others who have ethnic Chinese connections With the political and economic conditions of the region in a great state of flux for the past two centuries it is impossible to find consistency in the naming process Confucius had stressed that correct names make for the best relationships In this case Professor Leo Suryadinata has been pursuing for decades the elusive goal of finding the right name to give to the large numbers of people who have in one way or another made their homes in or made some difference to Southeast Asia I believe that when he and his colleagues selected the biographies to be included here they have taken a big step towards the rectification of identities for many leading personalities In so doing he has done us all a great service Professor Wang Gungwu National University of Singapore *Entangled East and West* Simo Mikkonen, Giles Scott-Smith, Jari Parkkinen, 2018-12-17 Despite increasing scholarship on the cultural Cold War focus has been persistently been fixed on superpowers and their actions missing the important role played by individuals and organizations all over Europe during the Cold War years This volume focuses on cultural diplomacy and artistic interaction

between Eastern and Western Europe after 1945 It aims at providing an essentially European point of view on the cultural Cold War providing fresh insight into little known connections and cooperation in different artistic fields Chapters of the volume address photography and architecture popular as well as classical music theatre and film and fine arts By examining different actors ranging from individuals to organizations such as universities the volume brings new perspective on the mechanisms and workings of the cultural Cold War Finally the volume estimates the pertinence of the Cold War and its influence in post 1991 world The volume offers an overview on the role culture played in international politics as well as its role in the Cold War more generally through interesting examples and case studies *History of Sculpture, Painting, and Architecture* Charles Samuel Farrar, 1882

Spon's European Construction Costs Handbook Davis Langdon & Everest, 2000-05-08 Spon's European Construction Costs Handbook is the only book of its kind a unique compilation of cost data on the single most important construction market in the world This updated edition expands its coverage of countries and once again gives details of select difficult to research markets in Eastern Europe as well as Western Europe North and

Ten Years, Realized Works Erick van Egeraat, 2005 The work of EEA as presented in this retrospective of the past 10 years of its work covers the full architectural gamut including public educational residential interior design exhibition design and the design of furniture and objects *A Critical History of Contemporary Architecture* Elie G. Haddad, David

Rifkind, 2016-12-05 1960 following as it did the last CIAM meeting signalled a turning point for the Modern Movement From then on architecture was influenced by seminal texts by Aldo Rossi and Robert Venturi and gave rise to the first revisionary movement following Modernism Bringing together leading experts in the field this book provides a comprehensive critical overview of the developments in architecture from 1960 to 2010 It consists of two parts the first section providing a presentation of major movements in architecture after 1960 and the second a geographic survey that covers a wide range of territories around the world This book not only reflects the different perspectives of its various authors but also charts a middle course between the aesthetic histories that examine architecture solely in terms of its formal aspects and the more ideological histories that subject it to a critique that often skirts the discussion of its formal aspects **Scientific and**
