Sino-British Negotiations on the Handover of Hong Kong (1979–1997) Wanglai Gao, 2025-01-04. In 1997, the smooth handover of Hong Kong between China and the United Kingdom defied pessimistic predictions about Hong Kong's future. The successful resolution of the Hong Kong issue was the result of 18 years of diplomatic exchanges between Chinese and British negotiators from 1979 to 1997. The two countries were involved in intensive interactions on issues such as sovereignty and administration, democratic reform in Hong Kong, the drafting of the Hong Kong Basic Law, and the PLA garrison. The book draws on a wealth of primary sources, including oral histories, British parliamentary testimony, and the memoirs of Chinese and British officials. It reveals fascinating bilateral exchanges between Chinese and British strategists and discloses the secret negotiations between the Chinese and the British. The book will be of interest to historians, scholars, and analysts of Chinese diplomacy.

China's Vulnerability Paradox Pascale Massot, 2024-03-15. In *China's Vulnerability Paradox*, Pascale Massot presents an original framework to examine the uneven transformations in global commodity markets resulting from the dramatic contemporary expansion of China's economy. While one might expect China to be able to easily exert power in these markets, Massot argues that China is actually quite vulnerable to external forces. She zeroes in on the relative position of China's market power across numerous major commodities in ore, potash, uranium, and copper. At a time of deepening US-China tensions and debates about the future of the global economy, this book provides an alternative understanding of the dynamics connecting the domestic political economy of large emerging economies and that of global markets.
