Negotiating The Frontier Translators And Intercultures In Hispanic History:

Negotiating the Frontier Anthony Pym, 2014-06-03 Why would a Latin Qur'an be addressed to readers who knew no Latin? What happens when translators work on paper rather than parchment? Why would a Jewish rabbi translate a Bible for Christians? How can a theorist successfully criticize a version of Aristotle without knowing any Greek? Why were children used to bring down an Amerindian civilization? Why does the statue of Columbus in Barcelona point straight to Israel? Why should a Nicaraguan poet cite a French poem in order to explain a volcano in Nicaragua? This book does more than answer such questions. It uses them to discuss some of the most fundamental and complex issues in contemporary Translation Studies and Cultural Studies. Identifying cultural intermediaries as members of medieval frontier society, it traces the stages by which that society has assisted in the creation of Hispanic cultures. Individual case studies go from the twelfth-century Christian-Islamic and Jewish exchanges right through to the not-unrelated complexity of today's translation schools in Spain, mining a history rich in anecdote and paradox. Further aspects trace key concepts such as disputation, the medieval hierarchy of languages, the nationalist mistrust of intermediaries, the effects of decolonization on development ideology, and the difficulties of training students for globalizing markets.

Beyond Descriptive Translation Studies Anthony Pym, Miriam Shlesinger, Daniel Simeoni, 2008 To go beyond the work of a leading intellectual is rarely an unambiguous tribute. However, when Gideon Toury founded Descriptive Translation Studies as a research-based discipline, he laid down precisely that intellectual challenge: not just to describe translation but to explain it through reference to wider relations. That call offers at once a common base, an open and multidirectional ambition, and many good reasons for an unambiguous tribute. The authors brought together in this volume include key players in Translation Studies who have responded to Toury's challenge in one way or another. Their diverse contributions address issues such as the sociology of translators, contemporary changes in intercultural relations, the fundamental problem of defining translations, the nature of explanation, and case studies including pseudotranslation in Renaissance Italy, Sherlock Holmes in Turkey, and the coffee and sugar economy in Brazil. All acknowledge Translation Studies as a research-based space for conceptual coherence and creativity; all seek to explain as well as describe. In this sense, we believe that Toury's call has been answered beyond expectations.

Collaborative Translation and Multi-Version Texts in Early Modern Europe Belén Bistué, 2016-05-23 Focusing on team translation and the production of multilingual editions and on the difficulties these techniques created for Renaissance translation theory this book offers a study of textual practices that were widespread in medieval and Renaissance Europe but have been excluded from translation and literary history The author shows how collaborative and multilingual translation practices challenge the theoretical reflections of translators who persistently call for a translation text that offers a single univocal version and maintains unity of style In order to explore this tension Bistué discusses multi version texts in both manuscript and print from a diverse variety of genres the Scriptures astrological and astronomical treatises herbals goliardic poems pamphlets the Greek and Roman classics humanist grammars geography treatises pedagogical dialogs proverb collections and romances Her analyses pay careful attention to both European vernaculars and classical languages including Arabic which played a central role in the intense translation activity carried out in medieval Spain Comparing actual translation texts and strategies with the forceful theoretical demands for unity that characterize the reflections of early modern translators the author challenges some of the assumptions frequently made in translation and literary analysis The book contributes to the understanding of early modern discourses and writing practices including the emerging theoretical discourse on translation and the writing of narrative fiction both of which as Bistué shows define themselves against the models of collaborative translation and multi version texts

Complicating the History of Western Translation Siobhán McEluff, Enrica Sciarrino, 2014-04-08 As long as there has been a need for language there has been a need for translation yet there is remarkably little scholarship available on pre modern translation and translators This exciting and innovative volume opens a window onto the complex world of translation in the multilingual and multicultural milieu of the ancient Mediterranean From the biographies of emperors to Hittite scribes in the second millennium BCE to a Greek speaking Syrian slyly resisting translation under the Roman empire the papers in this volume fresh and innovative contributions by new and established scholars from a variety of disciplines including Classics Near

Eastern Studies Biblical Studies and Egyptology show that translation has always been a phenomenon to be reckoned with Accessible and of interest to scholars of translation studies and of the ancient Mediterranean the contributions in Complicating the History of Western Translation argue that the ancient Mediterranean was a translational society even when paradoxically cultures resisted or avoided translation Indeed this volume envisions an expansion of the understanding of what translation is how it works and how it should be seen as a major cultural force Chronologically the papers cover a period that ranges from around the third millennium BCE to the late second century CE geographically they extend from Egypt to Rome to Britain and beyond Each paper prompts us to reflect about the problematic nature of translation in the ancient world and challenges monolithic accounts of translation in the West

Narratives of Mistranslation Denise Krippler, 2023-01-17 This book offers unique insights into the role of the translator in today's globalized world exploring Latin American literature featuring translators and interpreters as protagonists in which prevailing understandings of the act of translation are challenged and upended The volume looks to the fictional turn as a fruitful source of critical inquiry in translation studies showcasing the potential for recent Latin American novels and short stories in Spanish to shed light on the complex dynamics and conditions under which translators perform their task Krippler unpacks how the study of these works reveals translation not as an activity with communication as its end goal but rather as a mediating and mediated process shaped by the unique manipulations and motivations of translators and the historical and cultural contexts in which they work In exploring the fictional representations of translators the book also outlines pedagogical approaches and offers discussion questions for the implementation of translators narratives in translation language and literature courses

Translations In Times of Disruption David Hook, Graciela Iglesias-Rogers, 2017-10-06 This book throws light on the relevance and role played by translations and translators at times of serious discontinuity throughout history Topics explored by scholars from different continents and disciplines include war the disintegration of transnational polities health disasters and revolutions be they political social cultural and or technological Surprisingly little is known for example about the role that translated constitutions had in instigating and in shaping political crises at both a local and global level and how these events had an effect on translations themselves Similarly the role that translations played as instruments for either building or undermining empires and the extent to which interpreters could ease or hamper negotiations and foster new national identities has not been adequately acknowledged This book addresses all these issues among others through twelve studies focused not just on texts but also on instances of verbal and non verbal communications in a range of languages from around the world This interdisciplinary work will engage scholars working in fields such as Translation Studies History Modern Languages English Law Politics and Social Studies

Early Modern Exchanges Helen Hackett, 2016-03-09 Marcus Gheeraerts s portrait of a Persian lady probably in fact an English lady in masquing costume exemplifies the hybridity of early modern English culture Her surrounding landscape and the embroidery on her gown are typically English but her head dress and slippers are decidedly exotic the inscriptions beside her are Latin and her creator was an incomer artist She is emblematic of the early modern culture of exchange both between England and its neighbours and between Europe and the wider world This volume presents fresh research into such early modern exchanges exploring how new identities subjectivities and artefacts were forged in dialogues and encounters

between diverse cultures nations and language communities The early modern period was a time of creative interactions between cultures and disciplines and accordingly this is a multidisciplinary volume drawing together international experts in literature history modern and ancient languages and art history It understands cultural exchange as encompassing both the geographical mobilities of travel and trade and the transmission of ideas across borders and between languages as enabled by the new technology of print Sites of exchange were located not only in distant and unfamiliar lands but also in the bookseller's shop and the scholar's study The volume also explores the productive and complex dialogues between early modern culture and the classical past The types of exchanges discussed include the linguistic transactions of translation and imitation interactions between cultural elites such as monarchs courtiers and diplomats and the catalytic influences of particularly mobile or outward looking individuals and groups Ranging from the neo Latin poetry of an English author to the plays of a nun in seventeenth century New Spain from royal portraits exchanged in diplomatic negotiations to travelling companions in the Ottoman Empire the volume sheds new light

Translation Solutions for Many Languages Anthony Pym, 2016-04-21 Many translation solutions often called procedures techniques or strategies have been proposed over the past 50 years or so in French Chinese Russian Ukrainian English Spanish German Japanese Italian Czech and Slovak This book analyzes criticizes and compares them proposing a new list of solutions that can be used in training translators to work between many languages The book also traces out an entirely new history of contemporary translation studies showing for example how the Russian tradition was adapted in China how the impact of transformational linguistics was resisted and how scholarship has developed an intercultural metalanguage over and above the concerns of specific national languages The book reveals the intensely political nature of translation theory even in its most apparently technical aspects The lists were used to advance the agendas of not just linguistic nationalisms but also state regimes this is a history in which Hitler Stalin and Mao all played roles Communist propaganda and imperialist evangelism were both legitimized Ukrainian advances in translation theory were forcefully silenced in the 1930s the Cold War both stimulated the application of transformational grammar and blocked news of Russian translation theory French translation theory was conscripted into the agenda of Japanese exceptionalism and much else
