Informing the News Thomas E. Patterson, 2013-10-08 As the journalist Walter Lippmann noted nearly a century ago democracy falters if there is no steady supply of trustworthy and relevant news Today s journalists are not providing it Too often reporters give equal weight to facts and biased opinion stir up small controversies and substitute infotainment for real news Even when they get the facts rights they often misjudge the context in which they belong Information is the lifeblood of a healthy democracy Public opinion and debate suffer when citizens are misinformed about current affairs as is increasingly the case Though the failures of today s communication system cannot be blamed solely on the news media they are part of the problem and the best hope for something better Patterson proposes knowledge based journalism as a corrective Unless journalists are more deeply informed about the subjects they cover they will continue to misinterpret them and to be vulnerable to manipulation by their sources In this book derived from a multi year initiative of the Carnegie Corporation and the Knight Foundation Patterson calls for nothing less than a major overhaul of journalism practice and education The book speaks not only to journalists but to all who are concerned about the integrity of the information on which America s democracy depends

Sustainable Abundance for All Ted Nunez, 2018-01-15 What constitutes the good life and authentic Christian leadership in a high speed technological society geared to perpetual economic growth In a world of rapid change and heightened risks how do we move beyond the tyranny of emergency and polarization toward a politics of engagement and time oriented to the long term common good Taking up key themes in the social teaching of Popes Benedict XVI and Francis Sustainable Abundance for All argues that life in a risky runaway world requires new forms of Christian praxis that are both forward looking and rooted in tradition Among the issues addressed are pathways toward sustainable development in the Anthropocene automation and the transition to post jobs society the

proactionary precautionary debate over new technologies and the dangers of becoming people of the device Sustainable Abundance for All lays the groundwork for new kinds of Christian social action and prophetic witness in the twenty first century

Screens of Blood Gregory Desilet, 2014-02-10 Civilization seems to move ever more toward the power of words over weapons But many people especially Americans still believe wrongs in life can be righted with a fist or a gun or a bomb Cultural mythology lags reality and continues to send the message of regeneration through violence But the transition to a healthier mythology is already underway and can be seen in the strength of an alternative trend in depictions of violence in storytelling This book examines this trend by comparing examples drawn from film and television with the traditional popular dramatic approach reflecting and promoting a culture of violence This comparison shows that attitudes toward conflict in drama are a key indicator of a shift in awareness of violence in society The book concludes with an account of increasing challenges confronting the individual in today's world and the necessity for individual producers and consumers to take greater responsibility for their choices which shape culture through omnipresent and profoundly influential screen technology

Can We Zoom into God? Andrew Hemingway, 2023-10-19 When Zoom worship emerged in Britain during the COVID lockdown of 2020 Christians quickly turned to an art form a form of theater to deliver their worship It was a quest for immanence the very thing the Reformation dealt with by the elevation of transcendence What an intriguing thought Could John Calvin with his dictum regarding piety have practiced Zoom worship Served as he was with the principle that the finite cannot contain the infinite we must admit it looks very unlikely At least in this Calvin saw eye to eye with Erasmus but what of Luther He may have been a comfortable Zoom worshiper with his views that Religious artworks are neither here nor there and We may have them or not as we please Little did the church realize that it would be a step back into the past because what you permit you promote The desire to use images was much more sinister than in Medieval times as these were now images of ourselves Regardless of the age the image reigns supreme What had caused the demise Was it bereavement It could not be bereavement of God rather it was the loss of the social the bereavement of one another The need for one another had forced the hand of Christians to turn to a practice completely untested Zoom worship was born the genie is out and will never go back in But in the face of the now acceptable force of contemporary narcissism who cares

Values at Play in Digital Games Mary Flanagan, Helen Nissenbaum, 2016-09-02 A theoretical and practical guide to integrating human values into the conception and design of digital games with examples from Call of Duty Journey World of Warcraft and more All games express and embody human values providing a compelling arena in which we play out beliefs and ideas Big ideas such as justice equity honesty and cooperation as well as other kinds of ideas including violence exploitation and greed may emerge in games whether designers intend them or not In this book Mary Flanagan and Helen Nissenbaum present Values at Play a theoretical and practical framework for identifying socially recognized moral and political values in digital games Values at Play can also serve as a guide to designers who seek to implement values in the conception and design of their

games After developing a theoretical foundation for their proposal Flanagan and Nissenbaum provide detailed examinations of selected games demonstrating the many ways in which values are embedded in them They introduce the Values at Play heuristic a systematic approach for incorporating values into the game design process Interspersed among the book's chapters are texts by designers who have put Values at Play into practice by accepting values as a design constraint like any other offering a real world perspective on the design challenges involved Censored 2014 Mickey Huff, Andy Lee Roth, Project Censored, 2013-10-08 Truthout's Progressive Pick of the Week Ralph Nader's 10 Books to Provoke Conversation in 2014 Every year since 1976 Project Censored our nation's oldest news monitoring group a university wide project at Sonoma State University founded by Carl Jensen directed for many years by Peter Phillips and now under the leadership of Mickey Huff has produced a Top 25 list of underreported news stories and a book Censored dedicated to the stories that ought to be top features on the nightly news but that are missing because of media bias and self censorship Seven Stories Press has been publishing this yearbook since 1994 featuring the top stories listed democratically in order of importance according to an international panel of judges Beyond the Top 25 stories additional chapters delve further into timely media topics The Censored News and Media Analysis section provides annual updates on Junk Food News and News Abuse Censored Deja Vu signs of hope in the alternative and news media and the state of media bias and alternative coverage around the world In the Truth Emergency section scholars and journalists take a critical look at the US NATO military industrial media empire And in the Project Censored International section the meaning of media democracy worldwide is explored in close association with Project Censored affiliates in universities and at media organizations all over the world A perennial favorite of booksellers teachers and readers everywhere Censored is one of the strongest lifelines of our current collective desire to get the news we citizens need despite what Big Media tells us Slow Media Jennifer Rauch, 2018-09-11 Today we recognize that we have a different relationship to media technology and to information more broadly than we had even five years ago We are connected to the news media to our jobs and to each other 24 hours a day But many people have found their mediated lives to be too fast too digital too disposable and too distracted This group which includes many technologists and young people believes that current practices of digital media production and consumption are unsustainable and works to promote alternate ways of living Until recently sustainable media practices have been mostly overlooked or thought of as a counterculture But as Jennifer Rauch argues in this book the concept of sustainable media has taken hold and continues to gain momentum Slow media is not merely a lifestyle choice she argues but has potentially great implications for our communities and for the natural world In eight chapters Rauch offers a model of sustainable media that is slow green and mindful She examines the principles of the Slow Food movement humanism localism simplicity self reliance and fairness and applies them to the use and production of media Challenging the perception that digital media is necessarily eco friendly she examines green media which offers an alternative to a current commodities system that produces electronic

waste and promotes consumption of nonrenewable resources Lastly she draws attention to mindfulness in media practice mindful emailing or contemplative computing for example arguing that media has significant impacts on human health and psychological wellbeing Slow Media will ultimately help readers understand the complex and surprising relationships between everyday media choices human well being and the natural world It has the potential to transform the way we produce and use media by nurturing a media ecosystem that is more satisfying for people and more sustainable for the planet

The Vanishing Vision James Day, 2023-04-28 This spirited history of public television offers an insider's account of its topsy turvy forty year odyssey James Day a founder of San Francisco's KQED and a past president of New York's WNET provides a vivid and often amusing behind the screens history Day tells how a program producer desperate to locate a family willing to live with television cameras for seven months borrowed a dime and a suggestion from a blind date and telephoned the Lounds of Santa Barbara The result was the mesmerizing twelve hour documentary *An American Family* Day relates how Big Bird and his friends were created to spice up Sesame Street when test runs showed a flagging interest in the program's live action segments And he describes how Frieda Hennock the first woman appointed to the FCC overpowered the resistance of her male colleagues to lay the foundation for public television Day identifies the particular forces that have shaped public television and produced a Byzantine bureaucracy kept on a leash by an untrusting Congress with a fragmented leadership that lacks a clearly defined mission in today's multimedia environment Day calls for a bold rethinking of public television's mission advocating a system that is adequately funded independent of government and capable of countering commercial television's lowest common denominator approach with a full range of substantive programs comedy as well as culture entertainment as well as information This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1995 **How You Got Screwed** Allen
