SCREENING OF AUTISM USING CONVOLUTIONAL NEURAL NETWORK Amrita Budarapu, *Digital Capitalism and Distributive Forces* Sabine Pfeiffer,2022-01-12 Are robots taking away our jobs Those who ask this question have misunderstood digitalisation it is not an industrial revolution by other means Sabine Pfeiffer searches for the actual novelties brought about by digitalisation and digital capitalism In her analysis she juxtaposes Marx s concept of productive force with the idea of distributive force From the platform economy to artificial intelligence Pfeiffer shows that digital capitalism is less about the efficient production of value but rather about its fast risk free and permanently secured realisation on the markets The examination of this dynamic and its consequences also leads to the question of how destructive the distributive forces of digital capitalism might be **The Neuro-Consumer** Anne-Sophie Bayle-Tourtoulou,Michel Badoc,2020-04-24

Neuroscientific research shows that the great majority of purchase decisions are irrational and driven by subconscious mechanisms in our brains This is hugely disruptive to the rational logical arguments of traditional communication and marketing practices and we are just starting to understand how organizations must adapt their strategies This book explains the subconscious behavior of the neuro consumer and shows how major international companies are using these findings to cast light on their own consumers behavior Written in plain English for business and management readers with no scientific background it focuses on how to adapt marketing and communication to the subconscious and irrational behaviors of consumers the direct influence of the primary senses sight hearing smell taste touch on purchasing decisions and the perception of communications by customers brains implications for innovation packaging price retail environments and advertising the use of nudges and artifices to increase marketing and communication efficiency by making them neuro compatible with the brain s subconscious expectations the influence of social media and communities on consumers decisions when collective conscience is gradually replacing individual conscience and recommendation becomes more important than communication and the ethical limits and considerations that organizations must heed when following these principles Authored by two globally recognized leaders in business and neuroscience this book is an essential companion to marketers

and brand strategists interested in neuroscience and vital reading for any advanced student or researcher in this area

Qualitative Research Methods in Consumer Psychology Paul Hackett, 2015-08-20 While consumer research is founded on traditional quantitative approaches the insight produced through qualitative research methods within consumer settings has not gone unnoticed The culturally situated consumer who is in intimate dialogue with their physical virtual and social surroundings has become integral to understanding the psychology behind consumer choices This volume presents readers with theoretical and applied approaches to using qualitative research methods in ethnographic studies looking at consumer behavior It brings together an international group of leading scholars in the field of consumer research with educational and professional backgrounds in marketing advertising business education therapy and health Researchers teaching faculty and students in the field of consumer and social psychology will benefit from the applied examples of qualitative and ethnographic consumer research this volume presents Metabolizing Capital Christian J.

Pulver, 2020-06-01 Metabolizing Capital outlines a critical ecological framework to guide the theorization of writing and rhetoric in the dynamic contexts of Web 3 0 and environmental crisis The rise of the global cloud and the internet of things have ushered in a new stage of the internet that marks a transition from the celebrated user generated content of Web 2 0 to the data driven networks of Web 3 0 As social media networks have expanded so has the amount of writing and communication we do online This has created several valuable sub layers of data and metadata about consumer citizens that corporations and governments now routinely collect store and monetize This frenzy to collect more data is contributing to several problematic social and environmental concerns as flows of information and capital dangerously accelerate how energy and matter move through ecosystems at every scale This book explores the planetary consequences of Web 3 0 and the vital role that writing and data production play in accelerating capital circulation from concerns raised by the growing energy demands of the information industries to growing streams of electronic waste to the growing socioeconomic tensions arising as a result of information monopolies A posthuman Marxist analysis of digital culture and writing Metabolizing Capital contributes to and challenges current understandings of rhetorical agency and actor networks Combining scholarship from writing studies rhetoric and composition with research in metabolic ecology information theory media studies cognitive psychology history and new materialism this book should be of interest to scholars in writing studies as well as others who study digital culture ecological literacies the history of writing and information big data and environmental concerns related to electronics and the information industries **Media Capitalism** Thomas Klikauer, 2022-01-01 This book argues that

media and capitalism no longer exist as separated entities and posits three reasons why one can no longer exist without the other Firstly mass media have become indispensable to capitalism due to the media's ability to sell the commodities of mass consumerism Media capitalism also creates pro capital attitudes among a target population and establishes an ideological hegemony Thirdly media capitalism provides mass deception to hide the pathologies of capitalism which include mass

poverty rising inequalities and the acceleration of global warming To illuminate this the book s historical chapter traces the emergence of media capitalism Its subsequent chapters show how media capitalism has infiltrated the public sphere society schools universities the world of work and finally democracy The book concludes by outlining how societies can transition from media capitalism to a post media capitalist society
