Israel and the Covenants in New Testament Times Peter Williams, 2016-05-23 Second Edition Updated and Revised A Bible student reference A New Testament prophecy of a falling away from truth into apostasy and lawlessness in the final generation before Jesus Christ returns in glory is being fulfilled now and is shortly to end Yet Christianity has overwhelmingly moved so far from its first century roots that it could not even recognise this or that Christ s return is therefore now almost upon us How and why this is the case is here explained thoroughly and logically with many examples directly from the word of God In God s saving plan for the world everyone must in time make a free will choice to become part of the Israel of God in order to access eternal life in the kingdom of God The route to take is the strait and narrow way Mat 7 13 14 that very few have so far found and it involves the biblical new and old covenants which both apply to this Israel Embark on this voyage only if you are willing to be challenged about some basic Christian preconceptions be a serious open minded Bible student and trust what the Bible teaches but remember that time is short What the Bible has taught me I see as both vital and urgent for our eternal salvation yet I know of no church or individual theologian who teaches what this book deals with in any substantive way Be prepared for major challenges to your understanding just as God has challenged me In the epistles Paul refers to two Israels whom he calls Israel after the flesh I Cor 10 18 and the Israel of God Gal 6 16 I focus mainly on the latter but I also explain an unexpected but critically important connection between them Dependent on the teaching nearly all Christian denominations either teach nothing at all on it or almost the opposite of what Scripture repeatedly showed me Looking back I find this absolutely staggering Very few Christians understand that the new covenant also only applies to Israel as I will clearly show I no longer believe that the NT New Testament can be fully understood without this extra Israel dimension Had I felt I could deliver this in a more light hearted way I would have done so but its implications are too awesome and fundamental to our eternal life prospects for that

The role of arts and cultural institutions is changing Once viewed as stewards of objects institutions are increasingly upheld as stewards of people spaces where the diversity of human experience is asserted explored and celebrated As such they function as public resources and should be equally accessible to all members of diverse communities Individuals with autism spectrum disorder account for a significant portion of the community Advocates are working to shift attitudes and nomenclature with terms such as neurodiversity and sensory friendly becoming more commonplace With this cultural institutions are putting effort into creating tailored programs and resources to welcome neurodiverse visitors who have historically been excluded from these spaces Despite their desire to connect many cultural workers fear they lack the expertise or resources needed to effectively create inclusive spaces and experiences This book's content is presented by museum educators arts administrators occupational therapists and school psychologists contributors with different expertise and perspectives on the stakes of cultural arts experiences for neurodiverse visitors We offer advice based on what has worked for us and share the sometimes difficult lessons learned along the way However this advice comes with the caution there is no one size fits all solution To be truly successful arts and cultural institutions must respond to their unique community and work within the resources and limitations of their institution Our practical goals for the reader are threefold To understand the value of programming for neurodiverse visitors and effectively communicate this to others To build a toolkit of strategies and resources for neurodiverse visitors to have successful visits to cultural institutions no matter the staff size budget or current stages of accessibility To develop evaluation strategies to gauge the impact of offerings for neurodiverse visitors with results that help the reader improve grow and refine for the future
