Copyright Law Lasantha Ariyaratna,2022-09-05 This book examines the challenges posed to Australian copyright law by streaming from the end user perspective It compares the Australian position with the European Union and United States to draw lessons from them regarding how they have dealt with streaming and copyright By critically examining the technological functionality of streaming and the failure of copyright enforcement against the masses it argues for strengthening end user rights The rising popularity of streaming has resulted in a revolutionary change to how digital content such as sound recordings cinematographic films and radio and television broadcasts is used on the internet Superseding the conventional method of downloading using streaming to access digital content has challenged copyright law because it is not clear whether end user acts of streaming constitute copyright infringement These prevailing grey areas between copyright and streaming often make end users feel doubtful about accessing digital content through streaming It is uncertain whether exercising the right of reproduction is appropriately suited for streaming given the ambiguities of embodiment and scope of substantial part Conversely the fair dealing defence in Australia cannot be used aptly to defend end users acts of streaming digital content because end users who use streaming to access digital content can rarely rely on the defence of fair dealing for the purposes of criticism or review news reporting parody or satire or research or study When considering a temporary copy exception end users are at risk of being held liable for infringement when using streaming to access a website that contains infringing digital content even if they lack any knowledge about the content's infringing nature Moreover the grey areas in circumventing geo blocking have made end users hesitant to access websites through streaming because it is not clear whether technological protection measures apply to geo blocking End users have a severe lack of knowledge about whether they can use circumvention methods such as virtual private networks to access streaming

websites without being held liable for copyright infringement. Despite the intricacies between copyright and access to digital content, the recently implemented website blocking laws have emboldened copyright owners while suppressing end users' access to digital content. This is because the principles of proportionality and public interest have been given less attention when determining website blocking injunctions. *De Gruyter Handbook of Media Technology and Innovation* Richard A. Gershon, 2025-01-27. The De Gruyter Handbook of Media Technology and Innovation brings together scholars from around the world to provide key insights on emerging technology trends and issues related to the fields of media management, information technology, product design, planning, and digital lifestyle. This handbook is about the power of good ideas. It's about those business enterprises, government planners, educators, and entrepreneurs that have harnessed the power of good ideas to become real difference makers in the world we live in. Keeping pace with fast-paced technology change requires ongoing assessment and reassessment of the media management and technology fields to address important questions and emerging issues. A major premise of this book is that given the complex and ever-changing state of media technology, we have a responsibility and obligation to engage in a broader interdisciplinary dialogue whose purpose is to understand the current and future state of media technology and innovation as well as to appreciate the social impact that such technologies have on business, education, and the general public. Forecasting the future as any weatherperson or stock broker can tell you is a risky business. But in this book, we use the phrase "the creative next step" as a way to talk about the future and what we can expect in terms of the opportunities and challenges going forward. The Technology, Business, and Economics of Streaming Video Eli Noam, 2021-01-29. Along with its interrelated companion volume *The Content Impact and Regulation of Streaming Video*, this book covers the next generation of TV streaming online video with details about its present and a broad perspective on the future. It reviews the new technical elements that are emerging both in hardware and software, their long-term trend, and the implications. It discusses the emerging media cloud of video and infrastructure platforms and the organizational form of such TV. **Strategic Sport Communication** Paul M. Pedersen, Pamela C. Laucella, Edward Kian, Andrea N. Geurin, 2024-04-29. *Strategic Sport Communication* explores the multifaceted segment of sport communication. This text presents a standard framework that introduces readers to the many ways in which individuals, media outlets, and sport organizations work to create, disseminate, and manage messages to their constituents. **The Palgrave Handbook of Global Digital Journalism** Bruce Mutsaers, Kristin Skare Orgeret, 2024-11-08. This book responds to mounting calls to broaden the theorization of digital journalism, addressing critical questions about an emerging yet rapidly expanding area of study and presenting multiple entry points and approaches that help us understand digital journalism better. Seeking to establish itself as a rich resource and a defining reference point for the evolving field, the handbook provides a critical appraisal and a useful overview of novel approaches and concepts backed by a full breadth of dynamic and diverse interactions drawn from overlapping and critical studies by some of the leading experts on digital journalism. This handbook

presents multiple methodological perspectives reporting strategies threats and opportunities and valuable insights on future trajectories for digital journalism practice in an era dominated by digital media technology Split into four parts it has been uniquely assembled to investigate and critique the full potential of digital journalism capturing broader cross cultural perspectives from all four corners of the world Television's Streaming Wars Arienne Ferchaud, Jennifer M.
