Social Media Marketing Algorithms Jordan Connery,2021-02-21 Social media is a rapidly growing arena for everything from the

posting of videos to car sales so it should come as no surprise that big business is growing on there too. However, what can it actually do to help grow your business? Before selling any product, you have to get your name out there and spread the word of your new social media presence. By adding links to your social media accounts on your company website, you are encouraging people to follow you online in order to get the most up-to-date information as soon as you release it. When you put your company website on your social media profile, it gives your clients a way to go directly to your website. This will allow your customers to contact your company for more information, and it is more likely to create online buyers. Social media is the main way that companies are beginning to show involvement with their customers and community by promoting events they are sponsoring or releasing news to their clients. Real-time communication has become extremely important for customer satisfaction in today's businesses. People don't want to wait for answers to their questions or for help resolving any issue they might have. With social media, people have direct access to comments and post feedback for companies, making any kind of wait time for results obsolete. Press releases are a thing of the past and take more time to be processed out to customers. By using social media, your company is able to deliver news and updates to clients in real time while also allowing them to share the news with others and encouraging a faster spread of communication. By letting customers share your company's posts and information, it also allows new people to follow your company page and learn more about your business. Businesses are turning to Instagram and Facebook among other social media platforms to better communicate with their customers and spread the word about their business and future plans. To go about doing this, companies first have to understand the best ways to create brand awareness online and how to draw in new followers. Building a successful online following will take time. However, there are techniques and skills that will help you build an online following and create a popular social media site while still promoting your business and keeping in contact with your customers.

Zeitschrift für Medienwissenschaft 33 Gesellschaft für Medienwissenschaft e.V., 2025-10-09 Die Zeitschrift für Medienwissenschaft steht für eine kulturwissenschaftlich orientierte Medienwissenschaft, die Untersuchungen zu Einzelmedien aufgreift und durchquert, um nach politischen Kräften und epistemischen Konstellationen zu fragen. Sie stellt Verbindungen zu internationaler Forschung ebenso her wie zu verschiedenen Disziplinen und bringt unterschiedliche Schreibweisen und Textformate, Bilder und Gespräche zusammen, um der Vielfalt mit der geschrieben, nachgedacht und experimentiert werden kann, Raum zu geben. Nicht erst seit den Debatten über cultural appropriation ist Aneignung ein wiederkehrendes und wichtiges Thema der Medienwissenschaft. Hatten die Cultural Studies die aktive Rezeption als Form der Aneignung aufgefasst, so hat sich mit den digitalen Partizipationskulturen das Versprechen der User innen Ermächtigung auf das Prosumieren verlagert. Der Schwerpunkt schließt vor am Beispiel von Meme-Kulturen die Potentiale und Probleme von Aneignung neu zu bedenken und dabei die Kritik an kultureller Aneignung, aber auch Ideen zum digitalen commoning aufzugreifen. Wann kann Aneignung widerständig oder solidarisch sein und in welchen Fällen reproduziert sie herrschende Besitz- und Machtverhältnisse?
