To the Cloud Vincent Mosco, 2015-11-17. Cloud computing and big data are arguably the most significant forces in information technology today. In the wake of revelations about National Security Agency NSA activities, many of which occur in the cloud, this book offers both enlightenment and a critical view. Vincent Mosco explores where the cloud originated, what it means, and how important it is for business, government, and citizens. He describes the intense competition among cloud companies like Amazon and Google, the spread of the cloud to government agencies like the controversial NSA, and the astounding growth of entire cloud cities in China. Is the cloud the long-promised information utility that will solve many of the world's economic and social problems? Or is it just marketing hype? *To the Cloud* provides the first thorough analysis of the potential and the problems of a technology that may very well disrupt the world.

The Secret Economy of Attention: How Focus Became the New Currency Leigh Rivers, 2025-09-28. In today's world, money isn't the most valuable resource; attention is. Every scroll, every click, every second of focus has been turned into profit for someone else. Behind the screens, tech giants, advertisers, and algorithms are waging silent wars to capture and monetize the one thing you can never get back: your attention. *The Secret Economy of Attention* uncovers how focus quietly became the new currency of power, wealth, and control. Drawing from psychology, economics, and real-world trends, this book reveals the hidden marketplace where your time and concentration are being bought and sold, and how you can reclaim them. Inside, you'll discover how companies engineer distraction and dependency by design. Why attention has become more scarce than money in the digital age. The link between fractured focus, stress, and lost productivity. Practical strategies to protect your attention and spend it wisely. How to thrive in a world where focus is the ultimate
