**Postcolonial Aeromobilities** Bart Paul Vanspauwen, Iñigo Sánchez-Fuarros, 2025-06-23. This edited collection explores how national airlines in postcolonial states operate at the complex intersection of corporate branding, cultural governance, tourism development, and national identity formation. It conceptualizes airplanes and airports as both tangible infrastructural spaces and symbolic domains that connect geographically distant regions while embodying aspirations of political sovereignty and cultural unity. Through diverse case studies spanning multiple continents, the book examines how commercial aviation's physical and cultural spaces either reinforce or challenge colonial histories and imperial legacies. The volume reveals how modern Western imperial narratives were shaped through specific cultural and social negotiations that played out in airline branding, route networks, service standards, and cultural policies. It analyzes how airlines serve as vehicles for projecting soft power and cultural diplomacy while mediating between local traditions and global modernity. Drawing on rich empirical examples from Angola, Argentina, Australia, Belgium, Brazil, Jamaica, Kenya, France, Hong Kong, Indonesia, Lebanon, Mexico, Peru, South Africa, Turkey, and the United States, this collection demonstrates how airlines employ sophisticated cultural management and corporate branding strategies to shape national and regional identities. By examining airlines as sites where business strategy, cultural policy, and identity politics intersect, this collection advances our understanding of how transportation infrastructure shapes social imaginaries and power relations in our increasingly connected yet culturally diverse world. The research has important implications for scholars of business history, cultural studies, postcolonial theory, and transportation geography while offering practical insights for policymakers and airline industry leaders.

**Methods to Overcome the Financial and Money Transfer Blockade against Palestine and any Country Suffering from Financial Blockade** Dr. Hidaia Mahmood Alassouli, 2021-09-06 Online shopping and online money transfer have become an urgent necessity for all citizens of the world One of the difficulties I encountered in electronic money transfer and online shopping is the financial blockade against the Palestinians It is surprising although the electronic currency transfer has become the trend of the century with the developments of crypto currency block chain technology central and decentralized platforms and unlimited digital currency wallets which reflects the extent of progress in currency conversion in this era Most cryptocurrency platforms do not discriminate people on the basis of location or nationality Everyone has the right to open account with them and every person is responsible for securing his account On the contrary you find large websites that operate with a sterile racist mentality such as PayPal Skrill and others that ban residents of the Palestinian Authority areas just because they are

Palestinians For example PayPal is the most important electronic wallet for electronic payment is prohibited only for the residents of the Palestinian territories And if we open accounts outside Palestine the account will be closed immediately And there are also other large sites that follow the same policy as Skrill and eBay I also surprised that most of the electronic banks or electronic wallets that deal in the fiat currencies such as USD and EURO refuse to activate the accounts of the Palestinians With the exception of cryptocurrency platforms so far they do not put obstacles against the Palestinians And even the banks and wallets that agree to open accounts to Palestinian people they do not support withdrawals to a Palestinian bank whether in euros dollars or any other currency Other difficulty I encountered that the electronic banks and wallets that deal only with fiat currencies such as USD and EURO require that you not don t deposit withdraw or deal through the account with any digital crypto currency platforms In the event of making money transfer with any digital crypto currency platform the account will be suspended So the electronic banks and wallets that only support the fiat currencies for withdrawal and deposit consider digital currencies as suspicious and prohibited currencies Also most websites don t accept ordering Visa Master Card to Palestine region Hence I ask all concerned parties around the world to work to stop the discrimination and siege against the Palestinians by banks and electronic wallets In this report I will provide Summary of the difficulties I encountered in electronic money transfer and online shopping due to the financial blockade against the Palestinians And I will present some methods to overcome the financial and money transfer blockade against Palestine and similar countries facing from same issue This report consists from the following parts 1 Summary of the difficulties I encountered in electronic money transfer and online shopping due to the financial blockade against the Palestinians 2 The problem of Google banning the residents of Palestine from Google Payment Service GPAY 3 Scandals of some websites for publishing books such as Ingramspark com and other publishing websites that arbitrarily closed my accounts without reasons 4 My detailed complaint about Ingramspark com that closed four accounts for publishing for me without the slightest reason 5 Summary of best bank transfer methods I realized during my evaluations 6 Transferwise com 7 Payoneer com 8 Paysera com 9 Webmoney com 10 Paytiz com eCurrency Money Exchanger 11 Airtm com 12 Skrill com 13 Using WesternUnion com for money transfer 14 Using MoneyGram com for money transfer 15 Using WorldRemit com for money transfer 16 Using Xoom com for money transfer 17 Using ACEMoneytransfer com for money transfer 18 Examples of some successful tested bank money transfers 19 Examples of some failed tested bank money transfers 20 Some of my Arabic articles about the financial blockade against the Palestinians
