**The Great Unbundling** J. Y. Sterling, 2025-07-04

For hundreds of thousands of years the story of human success was the story of a unique and powerful package. In what this groundbreaking book calls the era of the Bundled Ape, our ancestors dominated the planet by combining analytical intelligence, emotional connection and physical dexterity within a single vessel: the individual human. Our societies, economies and even our myths were built on the assumption that the person with the idea is also the one who feels the passion, directs the hands and experiences the consequences. Now that bundle is coming apart. In *The Great Unbundling*, the author presents a stunning new thesis for understanding our turbulent times. The true disruption of artificial intelligence is not that it's a new tool, but that it is the engine of a historical process that is systematically isolating each of our core functions, improving them beyond human capacity and rendering the original human package obsolete. This unbundling is being driven at a breakneck pace by the relentless profit-seeking engine of modern capitalism, which sees in AI the ultimate instrument for maximizing efficiency. The evidence is everywhere. The Unbundling of Labor: Generative AI is poised to automate or degrade the work of 300 million full-time employees, striking at the heart of the knowledge economy from law and finance to journalism and medicine. The Unbundling of Intelligence: For the first time, raw problem-solving capability is being divorced from conscious understanding. An AI can pass the medical licensing exams without knowing what it means to heal or ace the bar exam without a concept of justice, forcing us to ask what expertise truly means. The Unbundling of Connection: In an age of profound loneliness, AI is stepping in to meet our most fundamental needs. With AI companions, parasocial relationships and algorithmically curated communities, emotional fulfillment is being unbundled from the messy, unpredictable and deeply rewarding work of human-to-human connection. What happens to a species whose core evolutionary advantage has been deconstructed and outsourced? What is the economic value of a human being in a world where our bundled skills are no longer competitive? This leads to the crisis of humanism itself and forces us to consider radical solutions like Universal Basic Income not as a political choice but as a potential civilizational necessity in the face of a useless class. But this is not another prophecy of doom. The unbundling is not an endpoint but a turning point. *The Great Unbundling* is the first book to chart the powerful counter-current that is rising in response. The Great Rebundling: This is the story of the conscious human effort to forge a new purpose. From the new artisans who are building thriving businesses on the very integrated, authentic human skills that AI cannot replicate to the political movements and policymakers fighting to subordinate this new technology to human values, a new path is being forged. *The Great Unbundling* is a profound, deeply researched and ultimately hopeful guide to the most important transition of our lifetime. It provides the

essential framework for understanding the forces reshaping our world and offers a stirring vision for how we can actively create our future This provocative and insightful work argues that we are at a civilizational crossroads We can either passively accept our unbundling or begin the conscious creative and difficult work of forging a new human purpose Essential reading for aficionados of Yuval Noah Harari Nick Bostrom and Kai Fu Lee The Great Unbundling is sure to spark debate and will forever change how you think about the future of humanity Sprachmaschinen Roberto Simanowski, 2025-10-15 Für die Philosophie geht die Sprache zu den vornehmsten und wichtigsten Eigenschaften des Menschen Sie ermöglicht es eine ganze Welt zu erschließen auch die intimsten Gedanken zu artikulieren sich über Wertvorstellungen zu verständigen und ist entscheidend für die besondere Freiheit und Souveränität mit denen Menschen ihr Leben führen Was aber geschieht wenn wir uns von einer Sprachmaschine die Welt erklären Werte vermitteln und das Denken abnehmen lassen Der Medienphilosoph und Internetexperte Roberto Simanowski will es genauer wissen und begibt sich auf die Suche nach den atemberaubenden Konsequenzen des großen Souveränitätstransfers der gerade im Gange ist Jede Technik hat die Macht ihren ahnungslosen Nutzern die eigene Logik aufzudrängen Gewöhnen uns ChatGPT Gemini und andere Chatbots das Lesen Schreiben und Denken abbereden sie uns zu Ansichten die wir gar nicht haben Entmündigen sie uns gerade dadurch dass sie uns so eifrig zu Diensten sind Und wer hat eigentlich in wessen Auftrag die Sprachmaschinen erzogen Simanowski geht diesen und weiteren Fragen nach mit dem philosophischen Gespür dafür wie die neue Technik die Situation des Menschen subtil aber enorm folgenreich verändern wird **Der neue Kosmos Welt-Almanach & Atlas 2024** Henning Aubel, Renate Ell, Philip Engler, 2023-09-20 Aktuell zuverlässig unentbehrlich Das Nachschlagewerk zum Zeitgeschehen Der neue KOSMOS Welt Almanach Atlas 2024 liefert Zahlen Daten und Fakten aus Politik Wirtschaft Umwelt Das Jahrbuch enthält einen Staatenteil in dem alle Staaten der Welt aufgeführt sind Dort finden sich zu jedem Land Informationen unter anderem zu Fläche und Einwohnern sowie zu Amtssprache n Bruttoinlandsprodukt Wirtschaft und Botschaften des Landes Der Almanach enthält außerdem weitere Informationen zur Landesstruktur Bevölkerung Staats und Regierungsform Regierung und Parteien sowie Wirtschaft Zu jedem Land gibt es einen Rückblick der die Ereignisse im Berichtszeitraum wiedergibt Ein kompletter Weltatlas erleichtert die Orientierung Der Welt Almanach Atlas 2024 wird auch als E Book und als App angeboten Autorinnen und Autoren des Buches sind Henning Aubel Andras Breuer Renate Ell Dr Philip Engler Lars G nther Gabriele Intemann Dr Heidrun Kiegel Monika Knaden Ulrike Koppchen Dr Ekkehard Kraft Brigitte Lotz Dr Bert Oliver Manig Dr Alexander Strahl
