College Guide Paul Glastris, Jane Sweetland, Staff Washington Monthly, 2015-03-10 A college degree has never been more important or more expensive. If you're not made of money, where can you get an amazing liberal arts education without your parents having to remortgage the house or cash in their retirement fund? How do you find good schools that offer a well-rounded campus life for black or Latino students? From the staff of Washington Monthly comes a new kind of college guide inspired by and including the magazine's signature alternative college rankings. The Other College Guide features smartly designed, engaging chapters on finding the best fit schools and the real deal about money, loans, and preparing for the world of work. This essential higher-ed handbook also highlights information on what to look for and watch out for in online programs and for-profit colleges and concludes with fifty profiles of remarkable but frequently overlooked schools. EASYUNI Ultimate University Guide 2015-2016 EasyUni, By the time you get your hands on this magazine, a wave of changes is expected to happen. Tension of the recent SPM exams would have plummeted as the holiday spirit envelops us, and while everything is bright and merry, some of you could be at the FACON Education Fair in KLCC this December, deciding which course to take whilst silently hoping you get aces on your actual SPM results, nagging thoughts you would rather muffle with the latest Star Wars movie or New Year's dinner party. Nerve-wracking, it is. Change is exciting. It's a cycle that all of us operate in, and that's totally fine, as I've been there too. Taking over the magazine with a fresh team of young writers was a tough experience, but it was a great opportunity to decide and flesh out new ideas. Thoughts of failing trouble our minds, but those are the very things that hinder us from growing. After having said that, I would encourage all of you to be a recipe for change. Don't be afraid to cook up some trouble.

Impacts of Study Abroad on Higher Education Development Nobuko Kayashima, Miki Sugimura, Kazuo Kuroda, Yuto Kitamura, 2024-08-10 This open access book is an exceptional contribution to the burgeoning fields of higher education development and higher education internationalization, as it empirically examines the impact of the study abroad experiences of faculty members on individual and institutional development. The research and its outcomes presented here utilize results from a large-scale survey and interviews of faculty at ten leading universities in Malaysia, Indonesia, Vietnam, and Cambodia. The analyses show that the study abroad experiences of faculty members impact not only improvements in research quality and development of educational programs but also serve as the foundation for international activities at the university, crucially important in today's higher education landscape. On the other hand, the research reveals the rapid development of higher education at the local and regional levels, including the development of graduate programs for faculty training in the home country, leading to increasing rates of study abroad within Southeast Asia. Through the analyses presented, this book offers a new understanding

of higher education development and internationalization in Southeast Asia by examining the impact of study abroad on the academic profession higher education institutions and the higher education sector *Teachers' Guide to Child Development* Arch Oliver Heck, California.
