Narváez, Micaela N. Villa, Gloria M. Díaz, 2025-08-31 This two volume set CCIS 2392 and CCIS 2393 constitutes the refereed proceedings of the 4th International Conference on Smart Technologies Systems and Applications SmartTech IC 2024 held in Quito Ecuador during December 2 4 2024 The 68 full papers presented in these proceedings were carefully reviewed and selected from 168 submissions They were categorized under the following topical sections Part I Smart Technologies Smart Systems Part II Smart Trends and Applications Poster Session *Generative AI and Education* B. Mairéad

Pratschke, 2024-08-27 This volume addresses the gap in knowledge around generative AI and its applications in education It draws on the recent history of technological innovation and digital pedagogies locating generative AI in the contemporary discourse around education futures It argues that a new hybrid model of education is emerging requiring educational institutions to embed generative AI into course and programme design delivery and assessment It also proposes a shift from a focus on learning as output to learning as a process and explores what that shift might look like Grounded in educational theory it offers actionable pedagogy informed guidance on how to position AI as a collaborator in the construction of learning in a manner that is congruent with the values and aims of education It offers advice based on evidence based digital pedagogy including frameworks for effective teaching and learning with generative AI that enable educators and designers to put these ideas into practice The book also explores the wider context informing this shift connecting narratives from governments and industry leaders on the strategic importance of generative AI and lifelong learning learning agility and future skills that make the case for the integration of competency based assessment into mainstream education Finally going beyond pedagogy and practice it considers some of the broader issues including limitations and ethics and the implications of integrating generative AI into institutional planning and design and includes a sample roadmap for education leaders to start the process of integrating generative AI into their institutions This work approaches the topic of generative AI from the vantage point of educators by addressing themes and concerns that will resonate with professionals in the sector **Empire**

of AI Karen Hao, 2025-05-20 A NEW YORK TIMES BESTSELLER An eye opening account of the tech arms race shaping our planet from an award winning journalist and AI insider to the world of Sam Altman and OpenAI When longtime AI expert and journalist Karen Hao first began covering OpenAI in 2019 she thought they were the good guys Founded as a nonprofit with safety enshrined as its core mission it was meant its leader Sam Altman told us to act as a check against more purely market forces But the core truth of this massively disruptive sector is that it requires an unprecedented amount of proprietary resources the compute power of scarce high end chips the sheer volume of data that needs to be amassed at scale the humans on the ground cleaning it up for sweatshop wages throughout the Global South and a truly alarming spike in the need for energy and water underlying everything We have entered a new ominous age of empire with OpenAI setting a

breakneck pace as a small group of the most valuable companies in human history try to chase it down In exhilarating prose and with unparalleled access to those closest to Sam Altman Hao recounts the meteoric rise of OpenAI and shows us the sinister impact that this industry is having on society 50 AI Ideas You Really Need to Know Keith Mansfield,2024-09-12 Master the technology reshaping our world today In a series of 50 accessible essays Keith Mansfield introduces and explains the essential concepts ideas and key thinkers behind artificial intelligence From Alan Turing asking can machines think and the best prompting techniques for generative AI to Superintelligence and the Singularity 50 AI Ideas You Really Need to Know is a complete introduction to the most important AI concepts past present and future Unlocking ChatGPT's Potential: Practical Tips and Tricks for Everyday Use Colin Tandy,2024-07-16 Unlocking ChatGPT s Potential Practical Tips and Tricks for Everyday Use In a world rapidly evolving with the advances of artificial intelligence ChatGPT emerges as a groundbreaking tool designed to transform the way we work learn and create Unlocking ChatGPT s Potential Practical Tips and Tricks for Everyday Use is your comprehensive guide to mastering this powerful AI assistant and integrating it seamlessly into your daily life This book takes you on an enlightening journey starting with the basics of setting up ChatGPT and understanding its core functionalities As you delve deeper you ll uncover practical applications that enhance productivity streamline tasks and organize information effortlessly Whether you re drafting emails generating creative content conducting research or managing personal projects this guide provides step by step instructions and expert tips to maximize ChatGPT s potential Explore the transformative power of ChatGPT across various domains Productivity Automate routine tasks manage schedules and boost efficiency Creative Writing Generate ideas draft compelling content and refine your writing Research and Learning Retrieve information summarize articles and gain clear explanations on complex topics Personal Assistant Plan events manage tasks and receive personalized assistance for everyday activities Professional Settings Enhance workplace communication collaboration marketing and customer support Advanced Features Customize ChatGPT to suit your needs and integrate it with other tools Ethical Use Navigate the ethical considerations and best practices for responsible AI usage Troubleshooting Resolve common issues and optimize performance Packed with real world case studies success stories and answers to frequently asked questions this book is an invaluable resource for both beginners and experienced users It empowers you to leverage the full capabilities of ChatGPT ensuring you stay ahead in an AI driven future About OPENAI OpenAI a leading force in artificial intelligence research and development is committed to ensuring AI technologies benefit all of humanity Our team of experts has crafted ChatGPT an advanced language model designed to assist with a myriad of tasks from simple conversations to complex problem solving Unlock the future of AI with Unlocking ChatGPT s Potential Practical Tips and Tricks for Everyday Use and revolutionize the way you live and work *The Quantum Passive Empire* Guillaume Lessard (El'Nox Rah),2025-08-01 In The Quantum Passive Empire Guillaume Lessard presents a revolutionary guide to creating automated income systems that align with your higher purpose and awaken your potential as a conscious

Emerging Computer Technologies 2 Ömer Aydın,Radosveta Sokullu,Özkan Akin,Erginay Aslan,Oliver Simonoski,Ninoslav Marina,Natasa Paunkoska (Dimoska),Izabela Mitreska,Mustafa Ceyhan,Enis Karaarslan,2022-12-31 There is rapid development and change in the field of computer science today These affect all areas of life Emerging topics in computer science are covered in this book In the first chapter a specific IoT application called a smart mailbox with face recognition which uses cellular connectivity and image processing to securely deliver valuable documents The prototype for this system includes a fingerprint reader camera electromagnetic lock and various other components connected to an Arduino Uno and a Raspberry Pi and uses OpenCV and Python software for face detection and recognition In the second chapter authors compares and evaluates the main characteristics of 5G channels and the performance of two channel coding candidates low density parity check LDPC codes and polar codes The analysis considers block error rate bit error rate computational complexity and flexibility and finds that polar codes outperform LDPC code systems though LDPC is still a viable option compared to other code systems The third chapter focuses on how to reliably process and store DNA sequences in EHR systems without any modifications To achieve this the authors introduce a coding technique and evaluate its effectiveness using the Hamming code and Reed Solomon coding schemes on a sample data set The results show that the Reed Solomon coding scheme outperforms the Hamming code in terms of error detection and correction for securely processing DNA records to EHR systems The next chapter investigates the robustness of AI models trained on thyroid ultrasound images using different convolutional neural network CNN architectures VGG19 Xception ResNet50V2 and EfficientNetB2 against adversarial attacks using the fast gradient sign method FGSM basic iterative method BIM and projected gradient descent PGD techniques In the fifth chapter it was questioned whether artificial intelligence could write an academic article In this direction an academic article was created and evaluated by OpenAI ChatGPT The final chapter proposes an application to measure RF signal intensities in urban areas and use that information to estimate the amount of energy that can be harvested from these signals This information is then presented to users through a geographical information system **THE EVOLUTION OF CHATGPT: FROM TEXT TO VOICE IN VIRTUAL WORDS** Virendra Pal Singh,Durgesh Kumar,Pankaj Sharma,Dr. Javed Ahmad,Mr.Gaurav Kumar Rajput,2023-12-12 ChatGPT is an artificial intelligence AI based chatbot that

makes use of natural language processing in order to provide conversational discourse that sounds and feels like it was done with a real person This is accomplished by producing conversational discourse in many languages including English Japanese and Korean ChatGPT is a cloud based application that may be accessed using the Azure cloud platform It was created by Microsoft Research The language model is able to provide responses to inquiries as well as generate a variety of written material such as emails posts on social networking sites and posts on platforms that enable users to write in the format of an essay On November 30 2022 OpenAI developed ChatGPT a big language model based chatbot and made it available to the public Only the beta version of ChatGPT was first made accessible to users Through the utilization of this feature users are provided with the capacity to enhance and lead a discussion in the direction of a desired duration structure style level of information and language This ability is made available to users What we refer to as the Chat Generative Pre trained Transformer is referred to as ChatGPT in its shorter version In order to determine the context of the dialogue at each level of the discussion a method known as prompt engineering is utilized This method involves looking at the prompts and responses that came before it in the conversation ChatGPT is built on either the GPT 3 5 or the GPT 4 model both of which are a part of OpenAI s proprietary line of generative pre trained transformer GPT models Both models were used in the construction of ChatGPT Conversational interactions are one of the primary focuses of ChatGPT s design The Google developed transformer architecture serves as the foundation for these models which have been modified for use in conversational applications by employing a mix of supervised learning and reinforcement learning strategies These methods were utilized in order to get a higher level of precision with the models The research preview version of ChatGPT was made accessible to the general public for the very first time as a free service

Generative AI Apps with LangChain and Python Rabi Jay, 2024-12-26

Future proof your programming career through practical projects designed to grasp the intricacies of LangChain s components from core chains to advanced conversational agents This hands on book provides Python developers with the necessary skills to develop real world Large Language Model LLM based Generative AI applications quickly regardless of their experience level Projects throughout the book offer practical LLM solutions for common business issues such as information overload internal knowledge access and enhanced customer communication Meanwhile you ll learn how to optimize workflows enhance embedding efficiency select between vector stores and other optimizations relevant to experienced AI users The emphasis on real world applications and practical examples will enable you to customize your own projects to address pain points across various industries Developing LangChain based Generative AI LLM Apps with Python employs a focused toolkit LangChain Pinecone and Streamlit LLM integration to practically showcase how Python developers can leverage existing skills to build Generative AI solutions By addressing tangible challenges you ll learn by be doing enhancing your career possibilities in today s rapidly evolving landscape
