Commons: Culture, Media and Sport Committee,2013-09-26 This report warns that the extraordinary success of the UK's creative industries may be jeopardised by any dilution of intellectual property rights and the failure to tackle online piracy. The Committee also strongly condemns the failure of Google in particular to tackle access of copyright infringing websites through its search engine. Such illegal piracy combined with proposals arising from the Hargreaves review to introduce copyright exceptions and a failure to strengthen copyright enforcement as envisaged by the Digital Economy Act 2010 together threaten the livelihoods of the individuals and industries that contribute over 36 billion annually to the UK economy. Also the Olympics No Marketing Rights scheme is excessively restrictive and is preventing British creative companies from realising the benefits they deserve from the Olympic legacy. The Committee calls for a central champion of Intellectual Property in Government to promote and protect the interests of UK intellectual property, the maximum penalty for serious online IP theft to be increased to 10 years imprisonment in line with the punishment for such offences in the physical world, more evidence and scrutiny before any exceptions to copyright such as those suggested by Hargreaves are applied, redoubled efforts to ensure that the video games tax credit is approved by the European Commission and introduced as soon as possible, reforms to the income tax and tax reliefs systems to recognise adequately the freelance nature of much creative work, greater recognition of the importance of arts subjects in the curriculum.

The Art of Delivery Michelle Clement,2025-05-27 The Art of Delivery ventures inside 10 Downing Street at the turn of the millennium to unveil how Tony Blair's government successfully transformed the public services we value most. Though the Blair government had a huge mandate, there remained fundamental challenges to success, not least the Blair-Brown rivalry which manifested itself in a proxy war over the direction of public service reform. Nevertheless, over four years the Prime Minister's Delivery Unit, led by Sir Michael Barber, upgraded the way in which the British government implemented improvements to the NHS and the education system. It also represented a watershed for how Prime Ministers engage with the real world delivery of their priorities. Until now, much of this narrative has remained untold. Based on brand new research and analysis, Michelle Clement uncovers the full story, drawing on 600,000 words of Sir Michael Barber's unpublished handwritten private diaries as well as exclusive interviews and government papers. Filled with revealing insider detail, this is a human account of what it takes to effect change from behind that famous black door.
