of a Lower Capital Gains Tax Rate in the United States International Monetary Fund, 1989-12-13 This paper reviews the literature on the revenue implications of a lower capital gains tax rate in the United States The existing empirical research indicates that the timing of realizations is sensitive to tax changes but is inconclusive on the long run revenue implications No study claims that tax revenues would increase very much on a permanent basis The paper concludes that other aspects of a lower capital gains tax rate deserves more attention in particular its impact on resource allocation and tax arbitrage

Tax Policy and Reform for Foreign Direct Investment in Developing Countries International Monetary Fund, 1990-07-01 This paper identifies tax factors in 21 developing countries that have an impact on foreign direct investment flows It categorizes those factors into issues associated with tax coordination tax rates and rate structures and composition of the tax base Recent actions by countries reveal no clear pattern in their attempts to increase tax coordination while many have reduced corporate tax rates and streamlined tax incentives However broad based tax reform is lacking in most leaving room for further possibilities in tax reform for attracting foreign investment The paper also addresses nontax factors that can be instrumental in attracting foreign investment **TOEFL Strategies** Bruce Stirling, 2024-10-12 TOEFL students all ask How can I get a high TOEFL iBT score Answer Learn argument scoring strategies Why Because the TOEFL iBT recycles opinion based and fact based arguments for testing purposes from start to finish In other words the TOEFL iBT is all arguments That's right all arguments If you want a high score you need essential argument scoring strategies That is what TOEFL STRATEGIES A COMPLETE GUIDE gives you and more Test Proven Strategies Learn essential TOEFL iBT scoring strategies developed in American university classrooms and proven successful on the TOEFL iBT Rhetorical Analysis Learn how to maximize scoring by rhetorically analyzing all reading listening speaking and writing tasks Argument Recycling Learn how the TOEFL iBT recycles opinion based and fact based arguments for testing purposes in all four test sections Argument Mapping Learn how to apply the strategy called argument mapping to all TOEFL tasks for maximum scoring **The Maui**

Do Taxes Matter for Long-Run Growth? Harberger's Superneutrality Conjecture Mr.Gian Milesi-Ferretti,Mr.Enrique G. Mendoza,Patrick K. Asea,1995-08-01 Harberger's superneutrality conjecture contends that although in theory the mix of direct and indirect taxes affects investment and growth in practice growth effects of taxation are negligible This paper provides evidence in support of this view by testing the predictions of endogenous growth models driven by human capital accumulation The theoretical analysis highlights implications of different taxes for growth and investment in these models The empirical work is based on cross country regressions and numerical simulations using a new methodology for estimating aggregate effective tax rates Results show significant investment effects from income and consumption taxes that are consistent with small growth effects The results are robust to the introduction of other growth determinants

Tax Incentives and International Capital Flows International Monetary Fund,1989-01-01 This paper explores how the tax treatment of investment and savings affects international capital flows as well as national and global welfare Focusing on portfolio investment it evaluates the international effects of capital income taxes in the United States and Japan During the 1980s these taxes encouraged capital flows to the United States both by favoring investment in that country and by harming the country's relative savings performance The paper concludes that the internationalization of financial markets calls for a careful study of the international implications of domestic tax policies

Researching Developing Countries Forrest Daniel Wright,2015-11-19 Why are some countries rich while others are poor Why are some well governed while others experience frequent conflict And how do you measure a country's true success anyways Social scientists have attempted to answer these types of questions for decades and have increasingly turned to data for this task Researching Developing Countries A Data Resource Guide for Social Scientists serves as a reference guide for social scientists and students interested in answering these complex questions The book will also be helpful to librarians serving the social science disciplines Topics covered in the book include human development economics governance conflict demographics migration and refugees environment foreign aid energy and infrastructure innovation and entrepreneurship geography and urban development and public opinion Covers over 30 countries with emerging markets Explores a wide array of topics for each country and their investment opportunities Includes a focus on international audiences as the book expands beyond the US market

Tax Policy Measures in Advanced and Emerging Economies: A Novel Database Mr.David Amaglobeli,Mr.Valerio Crispolti,Ms.Era Dabla-Norris,Pooja Karnane,Florian Misch,2018-05-11 This paper describes a new comprehensive database of tax policy

measures in 23 advanced and emerging market economies over the last four decades We extract this information from more than 900 OECD Economic Surveys and 37 000 tax related news from the International Bureau of Fiscal Documentation using text mining techniques The innovation of this dataset lies in its granularity changes in the rates and bases of personal and corporate income taxes value added and sale taxes social security contributions excise and property taxes are systematically documented In addition the database provides information on the announcement and implementation dates whether the measures represent major changes are part of a broader tax package and phased in over several years The paper also presents a range of stylized facts suggesting that information from this database is useful to deepen the analysis of tax policy changes for research and policy purposes [Building E-Commerce Solutions with WooCommerce](#) Robbert

Products Mrs.Poonam Gupta,Mr.Walter Mahler,1994-03-01 The domestic taxation of petroleum products is an important source of revenue in most countries However there is a wide variation of tax rates on petroleum products across countries which cannot be explained by economic theory alone This paper surveys different considerations advanced for taxing petroleum and presents petroleum tax rate data in 120 countries It concludes that a significant reduction in the present extremely wide variation in petroleum prices and tax rates appears warranted *Policy Complementarities* Mr.David T. Coe,Mr.Dennis J. Snower,1996-08-01 This paper argues that an important group of labor market policies are complementary in the sense that the effect of each policy is greater when implemented in conjunction with the other policies than in isolation This may explain why the diverse piecemeal labor market reforms in many European countries in recent years have had so little success in reducing unemployment What is required instead is deeper labor market reforms across a broader range of complementary policies and institutions To be politically feasible these reforms must be combined with measures to address distributional issues **Taxation and the Cost of Capital in Hungary and Poland** International Monetary Fund,1990-12-01 This paper compares the effective rates of taxation faced by a representative investor located in a major capital exporting country for investments in machinery and buildings in nine capital importing European countries Poland and Hungary are found to have relatively high effective tax rates on equity financed investment The analysis suggests that both countries would benefit from streamlining capital cost recovery allowances and possibly lowering statutory corporate tax rates as permitted by the revenue constraint rather than providing tax preferences for foreign investors

International Vat Harmonization Mr.Steven A. Symansky,Mr.Jacob A. Frenkel,Assaf Razin,1991-02-01 This paper highlights key macroeconomic issues related to VAT harmonization A model is developed which emphasizes the effects of changes in the time profile of various taxes on international behavior Dynamic simulations reveal that the macroeconomic and welfare implications of VAT harmonization including conflicts of interest depend critically on the tax system and the degree of substitution governing temporal and intertemporal allocations We also demonstrate that the effects of revenue neutral tax conversions between income and consumption tax systems undertaken by a single country depend critically on international differences in behavior *All Hands* ,1998 International Spillovers of Taxation International Monetary Fund,1989-05-11 This paper highlights key issues pertinent for the understanding of international effects of domestic tax policies and of international tax harmonization The analytical framework adopts the saving investment balance approach to the analysis of international economic interdependence focusing on income consumption and international borrowing A simulation model is developed that is richer in structure than the two period analytical model The analytical and simulation frameworks are used to analyze the consequences of revenue neutral conversions between income and consumption VAT tax systems the international effects of budget deficits and public debt management and the effects of international tax harmonization We demonstrate that the effects of such changes in the structure of taxes depend critically on international
