In BANK 3.0, Brett King brings the story up to date with the latest trends, redefining financial services and payments from the global scramble for dominance of the mobile wallet and the expectations created by tablet computing to the operationalising of the cloud, the explosion of social media, and the rise of the de-banked consumer who doesn't need a bank at all. BANK 3.0 shows that the gap between customers and financial services players is rapidly widening, leaving massive opportunities for new, non-bank competitors to totally disrupt the industry. On the Web and on Mobile, the customer isn't king; he's dictator. Highly impatient, skeptical, cynical, Brett King understands deeply what drives this new, hard-nosed customer. Banking professionals would do well to heed his advice. Gerry McGovern, author of Killer Web Content.
