Social Justice, the Common Core, and Closing the Instructional Gap Janet C. Richards, Kristien Zenkov, 2015-10-01 There is little doubt that the Common Core State Standards CCSS are a controversial entity They are provocative for the way in which they have been developed for the ways they are being implemented and evaluated for their content and for their failure to explicitly consider the needs interests and histories of diverse populations While the CCSS continue to be problematized by critics around the country including the editors of this volume it is evident our nation is moving toward some would argue we have arrived at a national set of standards and or a national curriculum This text will be an important volume for multiple audiences in large part because it will bring together critical perspectives on the CCSS and the notion of national standards curricula It will simultaneously provide a social justice orientation as a way to interpret the CCSS and respond to their limits while presenting practical examples of social justice oriented CCSS focused curricula that empower diverse learners and their teachers Social Justice the Common Core and Closing the Instructional Gap will consist of chapters by classroom teachers and university scholars who portray honest engaging first person accounts of their successes and challenges connecting a social justice pedagogical orientation to the Common Core State Standards These authors candidly and passionately share the challenges of navigating between a social justice curriculum and high stakes standards and test driven environments They highlight their accomplishments that include effectively supporting students to consider social injustices and devise plans to work toward a more equitable world

Young Adult Resources Today Don Latham, Melissa Gross, 2014-05-21 *Young Adult Resources Today: Connecting Teens with Books, Music, Games, Movies, and More* is the first comprehensive young adult library services textbook specifically written for today's multidimensional information landscape. The authors integrate a research-focused information behavior approach with a literature-focused resources approach and bring together in one volume key issues related to research theory and practice in the provision of information services to young adults. Currently, no single book addresses both YA information behaviors and information resources in any detail; instead, books tend to focus on one and give only cursory attention to the other. Key features of this revolutionary book include its success in integrating theory, research, and practice; integrating implications for practice throughout the book; integrating knowledge of resources with professional practice as informed by research; integrating both print and electronic formats throughout within the resource chapters, including websites and social media.
