The Ridiculously Simple Guide to Apple Watch Series 4 Scott La Counte, 2019-10-19 The

stage was set in September 2018 It was iPhone s big event The day where journalist and Apple fans alike lusted over the latest and greatest iPhone But a funny thing happened on the way to the announcement Apple Watch Series 4 took everyone s breath away The Apple Watch has of course been around for three years and seen several updates But 2018 was different the watch was finally ready for the masses This wasn t a watch for early adopters or fitness buffs this was the watch your parents and grandparents would get behind In addition to all the great features Apple Watch has always had series 4 is slimmer yet with a screen that is somehow bigger has optional cellular for making phone calls and streaming music without your phone and drop detection so if you fall and can t get up the fire department is dispatched to your location Everything about it was designed to motivate you to be more active As amazing as all the new features are it s not quite as easy to use as an iPhone the lack of buttons the smaller screen and general UI can make a frustrated initial experience The point of this book is to help new Apple Watch users and users updating to Watch OS 6 from an older device get the most out their investment Are you ready to start enjoying your new Apple Watch Then let s get started Note This book is not endorsed by Apple and should be considered unofficial

Apple Watch Series 5 Adidas Wilson, The Apple Watch Series 5 combines all the features you could ever want from a wearable band Every year Apple has been adding necessary features to make the Apple watch better The Series 2 came with the needed power for native apps After that Series 3 brought cellular connectivity and Series 4 had display pushed to full capacity Series 5 allows for an always on display The watch is now a watch If you own the Series 4 an always on display may not be reason enough to upgrade However the Series 5 offers much more Apple is not the first manufacturer to do this but they might as well be the best Monochrome veneer secondary display layer all these things are not there You only get an existing watch face always on How does it work With previous versions the Apple Watch would go into sleep mode when you were not interacting with it The same thing happens with the Apple Series 5
