methodologies and kinds of qualitative analysis all illustrated in ATLAS ti using the Five Level QDA method The book is accompanied by three sets of videos demonstrations on the Companion Website While this book uses screenshots from the current ATLAS ti Version 8 it is still fully applicable to users of older versions The book and accompanying videos illustrate the Windows version of ATLAS ti As there are some differences in screen and interface design between the Mac and Windows versions please watch the video The ATLAS ti Mac Interface in the Component Orientation series of videos available September 2017 The Five Level QDA method is based on the authors combined 40 years of experience teaching ATLAS ti and other software packages used as platforms for conducting qualitative analysis After many years observing their students challenges they developed the Five Level QDA method to describe the process that long time ATLAS ti experts unconsciously adopt The Five Level QDA method is independent of software program or methodology and the principles apply to any type of qualitative project Please see the following URL to access the accompanying materials for this book <https://www.qdaservices.co.uk/five-level-qda>
