Demystifying the Dark Side of AI in Business Dadwal, Sumesh, Goyal, Shikha, Kumar, Pawan, Verma, Rajesh, 2024-03-11 Demystifying the Dark Side of AI in Business delves into the often overlooked negative aspects of Artificial Intelligence AI and its implications for organizations In an era where AI is rapidly transforming industries and work environments it is crucial to understand the potential risks and challenges associated with its implementation Drawing from a wide range of global perspectives this book brings together articles from leading researchers academicians and professionals across disciplines to shed light on the dark side of AI Through academic rigor and meticulous analysis the book addresses key topics such as unethical AI implementation safety risks negative social impacts unintended consequences and legal concerns surrounding AI adoption This book covers crucial topics such as governance ethical concerns safety risks social impacts and future perspectives By illuminating the negative implications of AI this book paves the way for responsible and informed AI adoption ensuring a balance between the potential benefits and the inherent risks associated with this transformative technology Targeting researchers academicians professionals and

students with a wide range of interests this book offers a rich understanding of the theoretical and practical implications of AI It serves as a valuable resource for management disciplines like human resource management marketing financial management and operations management enabling readers to grasp the nuances of ai in different organizational contexts

Tasman's Psychiatry Allan Tasman,Michelle B. Riba,Renato D. Alarcón,César A. Alfonso,Shigenobu Kanba,Dusica Lecic-Tosevski,David M. Ndeti,Chee H. Ng,Thomas G. Schulze,2024-09-04 Authored by over 500 internationally acclaimed expert editors and chapter authors from around the world Completely updated and expanded with almost 40 new chapters Significantly increased attention to the role of culture in all aspects of evaluation and care New sections on Digital Mental Health Services and Technologies Treatment Issues in Specific Populations and Settings and on Prevention Systems of Care and Psychosocial Aspects of Treatment address key advances This edition is the first comprehensive reference work to cover the entire field of psychiatry in an updateable format ensuring access to state of the art information Earlier editions were called the best current textbook of psychiatry by the New England Journal of Medicine and the gold standard by the American Journal of Psychiatry Tasman s Psychiatry 5th Edition builds on the initial vision in prior editions of approaching psychiatric evaluation and care from an integrative bio psycho social cultural perspective It is designed to be an essential and accessible reference for readers at any level of experience This editorial approach encompasses the importance of the first encounter between patient and clinician followed by the complex task of beginning to develop a therapeutic relationship and to develop and implement a treatment plan in collaboration with the patient The importance of increasing attention to the role of culture and social determinants of mental health is reflected both in specific chapters and in components of many chapters throughout the book especially in those pertaining to clinical evaluation the therapeutic alliance and treatment The global scope of this edition is reflected throughout the book including the section on psychiatric disorders where evaluation using both ICD 11 and DSM 5 TR is discussed Most chapters are authored by experts from at least two different countries or continents adding a critically important dimension which often is missing in major psychiatric textbooks Tasman s Psychiatry 5th Edition is an essential reference for all medical professionals and students who need a trusted reference or learning tool for psychiatry psychology clinical research social work counseling therapy and all others Recent Advances in Artificial Intelligence and Smart Applications Jyotsna K. Mandal,Mike Hinchey,Satyajit Chakrabarti,2025-10-01 This book includes original unpublished contributions presented in the Second International Conference on Recent Advances in Artificial Intelligence and Smart Applications RAAISA 2024 organized by the Department of CSE University of Engineering and Management Kolkata India during December 14 15 2024 The topics covered are progression of artificial intelligence techniques like smart agent based systems human computer interaction technologies reinforcement learning sentiment analysis recurrent neural networks and its applications genetic algorithms and neural networks **Capitalism, Power and Innovation** Cecilia Rikap,2021-03-29 In contemporary global capitalism the most powerful corporations are innovation or

intellectual monopolies The book's unique perspective focuses on how private ownership and control of knowledge and data have become a major source of rent and power The author explains how at the one pole these corporations concentrate income property and power in the United States China and in a handful of intellectual monopolies particularly from digital and pharmaceutical industries while at the other pole developing countries are left further behind The book includes detailed empirical mappings of how intellectual monopolies develop and transform knowledge from universities and open source collaborations into intangible assets The result is a strategy that combines undermining the commons through privatization with harvesting from the same commons The book ends with provoking reflections to tilt the scale against intellectual monopoly capitalism and arguing that desired changes require democratic mobilization of workers and citizens at large This book represents one of the first attempts to capture the contours of an emerging new era where old perspectives lead us astray and the old policy toolbox is hopelessly inadequate This is true for the idea that the best or only way to promote innovation is to transform knowledge into private property It is also true for anti trust policies focusing exclusively on consumer prices The formation of global infrastructures that lead to natural monopolies calls for public rather than private ownership Scholars and professionals from the social sciences and humanities in particular economics sociology political science geography educational science and science and technology studies will enjoy a clear and all embracing depiction of innovation dynamics in contemporary capitalism with a particular focus on asymmetries between actors regions and topics In fact its topical issue broadens the book's scope to those curious about how innovation networks shape our world

Patent Analytics Jieun Kim,Buyong Jeong,Daejung Kim,2021-07-06 Through the prisms of a data scientist a patent attorney and a designer this book demystifies the complexity of patent data and its structure and reveals their hidden connections by employing elaborate data analytics and visualizations using a network map This book provides a practical guide to introduce and apply patent network analytics and visualization tools in your business We incorporate case studies from renowned companies such as Apple Dyson Adobe Bose Samsung and more to scrutinise how their underlying values of patent network drive innovation in their business Finally this book advances readers perspective of patent gazettes as big data and as a tool for innovation analytics when coupled with Artificial Intelligence
