Training to Teach in Primary Schools Jane Medwell, 2015-03-19 Full of practical help and guidance this is a must have for primary trainees on school experience whether they are in a school based or university based teacher training programme It begins by helping trainees to plan their own journey through training and beyond Taking control of their own training in this way supports student teachers to approach the course with confidence and secure their first teaching job The book provides guidance on adapting to working in school observing planning and evaluating in school teaching on placement assessing monitoring and reporting on children s progress self evaluation and how to pre empt and resolve issues securing the first teaching job and succeeding in the NQT year For student teachers the experience of school based training is exciting but also challenging this book supports them throughout and prepares them for the journey ahead Student feedback on this book Having been on a variety of teaching placements myself I know just how daunting and overwhelming experiences in school can be at times even with a supportive mentor by your side Hence I felt that this book can smooth out and rectify those worries one may face during a school placement and offers the reader a realistic insight into school experiences In my opinion the most useful chapter by far is the Moving On chapter near the end of the book This explains how to conclude a school placement what to expect from an interview and even how to set out a CV for a teaching position This was not something I expected to find in this book however it was very much welcomed and is in fact a very important valuable part of the book This is the type of book you can buy on your very first day of teacher training and use well into your days as a newly qualified teacher Jasmin Primary Teacher Trainee University of Northampton

Teacher Training David B. Pushkin, 2001-11-20 A critical and thought provoking examination of the teaching profession from academic preparation and training to opportunities for professional advancement Even if math teachers had degrees in mathematics and more physics teachers majored or minored in physics how would that address behavioral problems emotionally disturbed children apathetic parents and decaying school buildings How would requiring teachers to have degrees in their content areas attract better qualified teachers In what ways would such degrees make teachers better qualified and suited for classrooms In this volume education professor Dave Pushkin a former high school and community college chemistry and physics teacher probes beneath the surface of easy answers to determine what the problem with education really is Tired of being stressed out and burned out doing things he was never trained to do he examines everything from student teaching and certification to hiring and teaching outside one s own field
