Understanding the Shift! Selvan Athishtaraj V, 2022-05-13

In the today s corporate world business management is very important Business strategies are chalked out based on the customer s needs and affinity This is where business models become significant Thirty years ago ordering any commodity or article was a tedious process with a long waiting time for customers Choices and comparisons were limited

However with the reinvention of the business model in late 1985 business transactions have been made very easy and attractive Brands like McDonald s Toys R Us and Ryanair were instrumental in devising various successful business models

In the last fifteen years or so companies such as Uber Ola Amazon and eBay have made ordering and buying products and services simple using convenient apps

In fact the very way of doing business has become so simple thanks to innovative business models and platforms

Search engine optimization search engine marketing and public relations have reduced the marketing burden of brands who are now able to reach their target audience anywhere at any time

A lot has changed in the way businesses operate and serve customers This book captures the essence of various business models and the

technological advancements in the world of business with the aim to trigger new ideas and process innovation The book is a must read for new and existing businesses start ups and new age companies **Sustainable Planet** Anna

Claybourne,2022-09-22 Sustainable Planet gives young readers a clear insightful introduction to Earth s sustainability crisis Sustainability is defined as development that meets the needs of the present without compromising the ability of future generations to meet their own needs In the simplest terms sustainability is about children and the world we will leave them Earth is uniquely able to sustain life Yet we are stripping it of its natural resources polluting its land and waters and heating its atmosphere with terrifying consequences A more sustainable world is urgently needed now Sustainable Planet takes a non alarmist but truthful look at the issue of sustainability and suggests ways we can all live in a more planet friendly way from global changes such as investing in renewable energy sources and carbon offsetting to individual actions such as eating less meat and fish and avoiding plastic packaging that will empower young readers Following on from the successful Plastic Planet Hot Planet and Recycled Planet Sustainable Planet is written by the award winning science author Anna Claybourne
