Toward an Anti-Capitalist Composition James Rushing Daniel, 2022-08-15 In *Toward an Anti Capitalist Composition* James Rushing Daniel argues that capitalism is eminently responsible for the entangled catastrophes of the twenty first century precarity economic and racial inequality the decline of democratic culture and climate change and that it must accordingly become a central focus in the teaching of writing Delving into pedagogy research and institutional work he calls for an ambitious reimagining of composition as a discipline opposed to capitalism's excesses Drawing on an array of philosophers political theorists and activists Daniel outlines an anti capitalist approach informed by the common a concept theorized by Pierre Dardot and Christian Laval as a solidaristic response to capitalism rooted in inventive political action Rather than relying upon claims of membership or ownership the common supports radical collective acts of remaking that comprehensively reject capitalist logics Applying this approach to collaborative writing student debt working culture and digital writing Daniel demonstrates how the writing classroom may be oriented toward capitalist harms and prepare students to critique and resist them He likewise employs the common to theorize how anti capitalist interventions beyond the classroom could challenge institutional privatization and oppose the adjunctification of the professoriate Arguing that composition scholars have long neglected marketization and corporate power *Toward an Anti Capitalist Composition* extends a case for adopting a resolute anti capitalist stance in the field and for remaking the university as a site of common work
