

CYBER
MONDAY

The image features the text "CYBER MONDAY" centered on a black background. The background is decorated with a perspective grid of thin, light blue lines that create a sense of depth. The word "CYBER" is rendered in a large, bold, sans-serif font with a vibrant, multi-colored gradient (red, orange, yellow, green, blue, and purple) and a thick, glowing outline. The letters of "CYBER" have a digital glitch or distortion effect, with some edges appearing jagged or broken. Below "CYBER", the word "MONDAY" is written in a smaller, bold, sans-serif font, also with a glowing outline, but in a solid light blue color. The overall aesthetic is futuristic and digital.

The Death and Life of the Music Industry in the Digital Age Jim Rogers, 2013-05-09 The Death and Life of the Music Industry in the Digital Age challenges the conventional wisdom that the internet is killing the music industry While technological innovations primarily in the form of peer to peer file sharing have evolved to threaten the economic health of major transnational music companies Rogers illustrates how those same companies have themselves formulated highly innovative response strategies to negate the harmful effects of the internet In short it documents how the radical transformative potential of the internet is being suppressed by legal and organisational innovations Grounded in a social shaping perspective The Death and Life of the Music Industry in the Digital Age contends that the internet has not altered pre-existing power relations in the music industry where a small handful of very large corporations have long since established an oligopolistic dominance Furthermore the book contends that widespread acceptance of the idea that online piracy is rampant and music largely free actually helps these major music companies in their quest to bolster their power In doing this the study serves to deflate much of the transformative hype and digital deliria that has accompanied the internet's evolution as a medium for mass communication
