Department of Education. Audit Agency,1980 *Reauthorization of the Higher Education Act of 1965* United States. Congress. Senate. Committee on Labor and Human Resources. Subcommittee on Education, Arts, and Humanities,1991 This volume presents transcripts of seven hearings held in May 1991 on the reauthorization of the Higher Education Act of 1965 Of the hearings held in the District of Columbia the first focused on the Pell Grant and Stafford Loan programs and featured witnesses from around the country addressing educational finance The second hearing focused on the process of accreditation certification and licensing that determines institutional participation in the Federal student aid programs and featured witnesses from educational institutions and professional associations The final hearing presented the testimony of college executives representatives of educational associations and others on Title VI which supports international education and Title III concerned with institutional aid and funding for institutional facilities The hearings in other cities provided an opportunity for legislators to hear additional suggestions and recommendations from students teachers administrators institutional executives and state agencies on the reauthorization of higher education programs Included are the prepared statements of the witnesses as well as additional statements correspondence and supplemental material JB Protecting Taxpayers from Incompetent and Unethical Return Preparers United States. Congress. Senate. Committee on Finance,2014 **Why Does College Cost So Much?** Robert B. Archibald,David H. Feldman,2010-11-10 Much of what is written about colleges and universities ties rapidly rising tuition to dysfunctional behavior in the academy Common targets of dysfunction include prestige games among universities gold plated amenities and bloated administration This book offers a different view To explain rising college cost the authors place the higher education industry firmly within the larger economic history of the United States The trajectory of college cost is similar to cost behavior in many other industries and this is no coincidence Higher education is a personal service that relies on highly educated labor A technological trio of broad economic forces has come together in the last thirty years to cause higher education costs and costs in many other industries to rise much more rapidly than the inflation rate The main culprit is economic growth itself This finding does not mean that all is well in American higher education A college education has become less reachable to a broad swathe of the American public at the same time that the market demand for highly

educated people has soared This affordability problem has deep roots The authors explore how cost pressure the changing wage structure of the US economy and the complexity of financial aid policy combine to reduce access to higher education below what we need in the 21st century labor market This book is a call to calm the rhetoric of blame and to instead find policies that will increase access to higher education while preserving the quality of our colleges and universities
