This lecture examines the research and theory on social media and libraries, providing an overview of what is known and what is not yet known about libraries and social media. Chapter 1 focuses on the social media environments within which libraries are establishing a presence, including how social media sites differ from each other yet work together within a social ecosphere. Chapter 2 examines how libraries are engaging with users across a variety of social media platforms and the extent to which libraries are involved in using these different social media platforms as well as the activities of libraries in presenting a social self, sharing information, and interacting with users via social media. Chapter 3 explores metrics and measures for assessing the impact of the library's activity in social media sites. The book concludes with Chapter 4 on evolving directions for libraries and social media, including potential implications of new and emerging technologies for libraries in social spaces.

She's the one that got away. This Christmas, with my eighty-year-old grandmother as my wingman, I'm getting her back. Wow, I ended up reading this book in one sitting. I could not put it down. Danika Bloom books have now hit. Don't need to know about the book, just need to get it. Status in my TBR lists. Amazon reviewer PAIGE: I'm a dog trainer. I can teach any unruly pup to sit, stay, and not eat the furniture. My ex-boyfriend, however, is a whole other breed. A year ago, Josh became a millionaire after creating a wildly popular video game about dogs. My idea, by the way. I took one look at his new bank account and ran all the way to another continent. Now I'm home for Christmas, and his matchmaking Nana has decided it's time for a reunion. She's deploying her secret weapon: a guilt-inducing collie and hiding cookies in the frozen vegetable bag. She's nuts. But the way Josh still looks at me like he remembers every stupid word I ever made up makes me wonder if I'm the crazy one for ever leaving JOSH. My girlfriend, the only woman who truly understands that dogs are better than people, gave me the idea for a game that made me millions. And then she left me. Says I can't use my money to take care of her. Now she's back, and my eighty-year-old grandmother is playing puppet master with our lives. Paige says she's leaving after the holidays, but I see through her tough girl act. She's the one who got away, and I was a fool to let her go. Nana's methods may be chaotic, but she's right about one thing: Paige belongs with me. And this time, I'm not taking no for an answer.
