Celeb 2.0 Kelli S. Burns, 2009-10-22 This volume looks at how the new capabilities of Web 2.0 are changing the worlds of celebrity fandom and gossip With Ashton Kutcher's record breaking tweeting more famous than his films and Perez Hilton actually getting more attention than Paris the actress often covered in his blog the worlds of celebrity celebration and online social networking are pushing the public's crush on the famous and infamous into overdrive Celeb 2.0 How Social Media Foster Our Fascination with Popular Culture explores this phenomenon Celeb 2.0 looks at how blogs video sharing sites user news sites social networks and message boards are fueling America's already voracious consumption of pop culture Full of fascinating insights and interviews the book looks at how celebrities use blogs Twitter and other tools how YouTube and other sites create celebrity how Web 2.0 shortens the distance between fans and stars and how the new social media influences news reporting and series television

Sentient Strategy Alan Weiss, 2023-03-23 No pre pandemic strategy is effective anymore None Not for organizations large or small for profit or non profit domestic or global Claims of a return to normal or the new normal are ridiculous What we're facing is really a new reality and that reality is the need for agile strategic decisions and pragmatic views of the future That means that strategy formulation can be reduced to a few days and the view of the future can only be 12-18 months This is the antithesis of Peter Drucker's approach to strategy but his highly effective approach was developed at GM three quarters of a century ago It's time to move on Alan Weiss has developed an original and completely new approach to strategy which thus far has certified over 100 people globally delivering this approach to scores of firms of all types in four countries More than two dozen firms are using this approach Sentient Strategy is based on two modern dimensions awareness of the environment in which the organization exists and has influence and consciousness of the impact of actions being considered The old SWOT strengths weaknesses opportunities threats approaches are currently equivalent to riding down the freeway on a horse We must drop the hubris that has led us to believe we can see years ahead and anticipate what's coming No one predicted the Internet No one predicted the latest pandemic It's time to turn volatility and disruption on their heads and use them as offensive weapons in the marketplace instead of trying to protect ourselves from them Imagine a strategy that an organization can formulate in just a day or so revisit easily and frequently and design a series of shorter term viable futures Sentient means perceptive and self aware It doesn't mean one size fits all from a cookie cutter firm's approach to strategy Alan Weiss equips the reader to consider using this approach independently These are new times a new reality a no normal™ hence it's ridiculous to use old approaches to strategy There's a clear reason why Sears didn't morph into Amazon and why Hertz surrendered its number one spot to Enterprise
