And as they buy multiple properties, their debt-to-equity rises, making it more difficult to get the kind of deal they need. As many investors have learned the hard way, getting the wrong financing can wipe out their profits, hold them back from selling because of a lack of equity, or force them to try to sell for more than the market will bear. *The Real Estate Investor's Guide to Financing* is the one book that shows readers how to get the right financial package for the biggest return on their investment. As a respected author and mortgage banker, David Reed has spent more than 20 years helping investors finance their properties. Here he offers advice on such crucial topics as financing options for different property types, the financial implications of renting vs. flipping, setting rental rates, the challenges and benefits of being a landlord, including rent loss coverage, the pros and cons of having partners, tips on financing a second home, duplex, multi-family unit, or condo. Complete with essential advice on financing and a glossary of investment terms, this is the one guide that will help readers start making real money. *Congressional Record* United
