protagonists shaping British economic policy in the late 20th Century      Divided We Fall Alice M. Rivlin,Sheri Rivlin,Allan  
Rivlin,2022-10-04 Partisan warfare and gridlock in Washington threaten to squander America s opportunity to show the  
world that democracy can solve serious economic problems and ensure widely shared prosperity Instead of working together  
to meet the challenges ahead an aging work force exploding inequality climate change rising debt our elected leaders are  
sabotaging our economic future by blaming and demonizing each other in hopes of winning big in the next election They are  
weakening America s capacity for world leadership and the case for democracy here and abroad Alice M Rivlin with decades

of experience in economic policy making argues that proven economic policies could lead to sustainable American prosperity and opportunity for all but crafting them requires the tough time consuming work of consensus building and bipartisan negotiation In a divided country with shifting majorities major policies must have bipartisan buy in and broad public support Otherwise we will have either destabilizing swings in policy or total gridlock in the face of challenges looming at us Rivlin believes that Americans can and must save our hyper partisan politicians from themselves She makes the case that on many practical economic issues the public is far less divided than partisan politicians and sensationalist media would have us believe She draws attention to numerous hopeful efforts to bridge partisan and ideological divides in Washington in state capitols and city governments and communities around the country and advocates a major national effort to enable citizens and future leaders to learn and practice the art of listening to each other and working together to find common ground This book is a practical guide for Americans across the political spectrum who are agonizing over partisan warfare incivility and policy gridlock and looking for ways they can help to get our democratic policy process back on a constructive track before it is too late
