Export America ,2000 **Hidden Barriers In The Set Up** Sam Oputa,2016-07-31 What therefore is the incentive to create poor people and legislate a means to keep them down Did I hear you say capitalism You are right The status quo must be maintained Some may not see hypocrisy in this But let us think about this rationally If non blacks were to empathize for lack of a better word with white folks what will be a reason to discriminate against others and institutionalize racism Let s look at a few angles 1 Hatred Hatred or hate is a deep emotional and extreme dislike Such hatred can be directed against certain individuals or groups To say hatred is the reason to keep non whites poor will be far fetched Even when non whites were slaves they had cherished values of live and let live Disdain May be but definitely not hatred 2 Fear Fear is a phobia Phobia is the extreme aversion embedded deep in our psyches activated when we come face to face with that which we fear Some people mostly non blacks are afraid of black people Is it a fear based on facts or a belief that the black man is inherently bad or is it a fear of repercussion emanating from what our grandfathers did to the black man This angle is worth pursuing but then it is just a very lethal phobia 3 Greed This is more like it Greed is good for those at the top Greed is good for the few landowners represented by corporations now The rich have a need to create an imaginary enemy They do not want to be seen as the enemy just like the corporations don t want you to know that they manage the world s resources for a select few They hand out some minute resources here and there to the operators managers of the corporations who are the middle class Thus the middle class thinks they are buddy buddy with the landowners The landowners must provide an incentive so as to maintain a grip at their corporations so the design is to make the middle class believe that the lower class is at that level because they are lazy and seeking handouts Were black people lazy during slavery Did black folks seek handouts during slavery Of course they received handouts in shapes of chit lings pig feet and cow feet How all of a sudden blacks became lazy as soon as slavery was over Can you begin to see the design now 4 By design It is a design in plain sight Many people cannot see it Those who see it are incapable to do anything about it because by design the whole plot has been legislated into law Just like apartheid the various governments and departments at many levels justified the discrimination through laws the oppressed cannot surmount It was so then and it is so today with little or no legislative modification in sight Have you ever imagined why the 44th president of United States is having so much problems with the Congress You think the Congress populated by mostly old white men are giving the black president a tough time because of race Or you think they hate the first black president of the union If you answered yes to any of these questions you are yet to understand the workings of a country some have christened God s own Country The fear of a black president undoing four hundred years of discriminative laws the phobia of taking down the protections of the rich landowners and the enforcers of that protection led to a section of a congress to proclaim from day 1 of the black president s inauguration if Obama wants it we reject it right off the bat This simply means an opposition to President Obama s policies on all fronts Some were not hiding their enthusiasm

for an Obama failure they worked for it They feared an Obama presidency that might implement programs that would invite non whites to participate thus engaging in capitalism Slogans like take our country back were dusted up for re use It was strategic They were all noises meant to drown some of Obama s signature programs like the affordable care act popularly known as Obamacare It has always been by design The Emperor's Codes Michael Smith,2001 Describes the work and personalities of the codebreakers who deciphered Japanese codes despite vast linguistic differences between English and Japanese and explains their contributions to Allied success during World War II **Codes, Ciphers and Spies** John F. Dooley,2016-03-31 When the United States declared war on Germany in April 1917 it was woefully unprepared to wage a modern war Whereas their European counterparts already had three years of experience in using code and cipher systems in the war American cryptologists had to help in the building of a military intelligence unit from scratch This book relates the personal experiences of one such character providing a uniquely American perspective on the Great War It is a story of spies coded letters plots to blow up ships and munitions plants secret inks arms smuggling treason and desperate battlefield messages Yet it all begins with a college English professor and Chaucer scholar named John Mathews Manly In 1927 John Manly wrote a series of articles on his service in the Code and Cipher Section MI 8 of the U S Army s Military Intelligence Division MID during World War I Published here for the first time enhanced with references and annotations for additional context these articles form the basis of an exciting exploration of American military intelligence and counter espionage in 1917 1918 Illustrating the thoughts of prisoners of war draftees German spies and ordinary Americans with secrets to hide the messages deciphered by Manly provide a fascinating insight into the state of mind of a nation at war The Code of the Laws of the United States of America of a General and Permanent Character United States,1926 **The Code of Federal Regulations of the United States of America** ,1998 The Code of Federal Regulations is the codification of the general and permanent rules published in the Federal Register by the executive departments and agencies of the Federal Government

Competing for Integration Kurt W. Radtke,Marianne Wiesbron,Marianne Wiesebron,2016-09-16 This study demonstrates why the global economy and global policies can only be understood by assigning equal importance to actors from different continents and international institutions The contributors begin by examining the effects of reducing trade barriers through the WTO processes and the implications for our understanding of market forces the diminishing capacity of governments consumer power and the role of international agreements They provide fascinating details on how the European Union and Japan develop their own strategies toward emerging Asian and Latin American states quite separately from the United States The focus then shifts toward integration processes in Latin America The book concludes by attempting to make sense of the political principles underlying the complex economic policies of the main actors in today s global economy focusing on development strategies offered by the World Bank **Codes of Fair Competition** ,1933 **How to set up an Acute Stroke Service** Iris Q. Grunwald,Klaus Fassbender,Ajay K. Wakhloo,2011-12-20 Although it is widely recognized that

time is of the essence in the management of stroke there are currently few efficient stroke centers that prospective new centers may emulate This book offers a concise and practical guide on how to set up and run an acute stroke service tailored to the needs of the individual center as a provider of primary secondary or tertiary care All aspects of the subject are tackled Essential knowledge on current imaging and treatment options is provided and guidance is offered on organizing a site specific stroke pathway so as to ensure the quickest possible provision of treatment The authors played an integral part in the development and operation of one of Europe s most successful early stroke centers and also have experience of the factors that can undermine the creation of world class stroke units This handbook will be an invaluable source of information for every member of the stroke team *Unlock your DVD player with just your remote! - Secret codes to make your DVD player region free* Richard Bacon, *Black & Decker Codes for Homeowners* Bruce A.
