Designing for Democracy Jennifer Forestal, 2022 How should we fix digital technologies to support democracy instead of undermining it In *Designing for Democracy* Jennifer Forestal argues that accurately evaluating the democratic potential of digital spaces means studying how the built environment a primary component of our modern public square structures our activity shapes our attitudes and supports the kinds of relationships and behaviors democracy requires While many scholars and practitioners are attentive to the role of design in shaping behavior they have yet to fully engage with the question of what structures are required to support democratic communities and how to build them Forestal closes this gap by providing a new theory of democratic space Drawing from a wide range of disciplines including architecture psychology and the history of political thought she argues that democratic spaces must be designed with three environmental characteristics boundaries durability and flexibility that taken together afford users the ability to engage in fundamental civic practices Through extended analyses of Facebook Twitter and Reddit Forestal shows precisely how well these digital platforms meet the criteria for democratic spaces or whether they do so at all The result is a more nuanced analysis of the democratic communities that form or fail to emerge in these spaces as well as more concrete suggestions for how to improve them In connecting the built environment digital technologies and democratic theory *Designing for Democracy* provides blueprints for democracy in a digital age

The Case for Community in Online Spaces Brooke Dunbar-Treadwell, 2023-08-01 Many believe that our sense of community is dying as the result of our digitized world In this book Brooke Dunbar Treadwell refutes this claim and presents a case that connection is thriving in online spaces as people share stories practice vulnerability and build

communities From memes to Reddit to Facebook Dunbar Treadwell offers perspectives that combine relevant scholarship with examples from her research pop culture and society She addresses some of the factors that contribute to disconnection like political division and dehumanization while also painting a picture of a society that desperately desires connection and may not always know how to find it Ultimately this book illustrates how community and connection have changed over time how they are currently alive and well while offering some important practical advice for how readers can consider their own choices in online spaces to help them find the community that they seek Scholars of communication media studies and political science will find this book of particular interest

The Murkin Conspiracy Philip H. Melanson,1989-02-17 Murkin was the code name chosen by the FBI for their investigation into the assassination of Dr Martin Luther King Jr in 1968 Today 20 years after the fatal shooting of the civil rights leader Philip H Melanson a renowned authority on American political assassinations unveils his own investigation into the murder Melanson has done an exhaustively thorough job on the still mysterious King assassination After following Melanson s meticulous pursuit of seemingly every lead in the case including interviews with the men whose names were used as aliases for alleged killer James Earl Ray there can be little doubt in the reader s mind that neither of the two official versions of what happened could have been the whole truth The first was the ever popular notion of the lone killer Ray The second propounded by a clearly inept congressional investigation a decade after the 1969 shooting was that an ill defined racist conspiracy was behind the

assassination What seems unarguable is that Ray a petty criminal could not have killed King unaided There are too many improbabilities the source of his carefully chosen Canadian aliases the identity of the fat man who brought him a letter in Toronto during his escape the odd setup at the rooming house from which the shot was fired It is Melanson's thesis that there was high level intelligence involvement probably by the CIA which was violently alarmed by King's anti Vietnam stance Publisher's Weekly Murkin was the code name chosen by the FBI for the investigation into the assassination of Dr Martin Luther King Jr in 1968 Today twenty years after the fatal shooting of the civil rights leader Philip H Melanson a renowned authority on American political assassinations unveils his own investigation into the murder Through extensive interviews research and Freedom of Information Act requests Melanson analyzes the official investigations the evidence the performance of law enforcement officials the role of James Earl Ray and the questions of conspiracy Much of the data presented has never before been published Based on his detailed investigation Melanson offers a revisionist interpretation of the King case demonstrating that it remains unsolved Melanson argues persuasively that both the FBI's conclusion that Ray acted alone and the later 1978 House Select Committee on Assassinations decision that Ray was backed by a conspiracy of St Louis based white supremacists are not supported by the evidence Although Melanson concludes that Ray did not in fact act alone he contends that the official investigations were so flawed that the conspirators behind him are still unidentified His own conclusions regarding the probable source of the conspiracy offer a sobering indictment of the ways in which powerful interests left unchecked can wreak havoc on American democratic processes
