Smart Intelligent Computing and Applications Suresh Chandra Satapathy, Vikrant Bhateja, J. R. Mohanty, Siba K. Udgata, 2019-09-26 This book gathers high quality papers presented at the Third International Conference on Smart Computing and Informatics SCI 2018 19 which was

organized by the School of Computer Engineering and School of Computer Application Kalinga Institute of Industrial Technology Bhubaneswar India on 21 22 December 2018 It includes advanced and multi disciplinary research on the design of smart computing and informatics Thematically the book broadly focuses on several innovation paradigms in system knowledge intelligence and sustainability that can help to provide realistic solutions to various problems confronting society the environment and industry The respective papers offer valuable insights into the how emerging computational and knowledge transfer approaches can be used to deliver optimal solutions in science technology and healthcare

Evolution in Computational Intelligence Vikrant Bhateja, Sheng-Lung Peng, Suresh Chandra Satapathy, Yu-Dong Zhang, 2020-09-08 This book presents the proceedings of 8th International Conference on Frontiers of Intelligent Computing Theory and Applications FICTA 2020 which aims to bring together researchers scientists engineers and practitioners to share new ideas and experiences in the domain of intelligent computing theories with prospective applications to various engineering disciplines The book is divided into two volumes Evolution in Computational Intelligence Volume 1 and Intelligent Data Engineering and Analytics Volume 2 Covering a broad range of topics in computational intelligence the book features papers on theoretical as well as practical aspects of areas such as ANN and genetic algorithms computer interaction intelligent control optimization evolutionary computing intelligent e learning systems machine learning mobile computing and multi agent systems As such it is a valuable reference resource for postgraduate students in various engineering disciplines

Cancer Detection and Diagnosis Miguel Ossandon, Ben Prickril, Avraham Rasooly, 2025-08-21 Emerging technologies for cancer detection and diagnosis are providing more and more advance warning of pathologies of clinical significance Research devoted to cancers are revealing new ways of finding and treating these complex diseases This volume reviews a broad array of new technologies for cancer detection and diagnosis While there are several clinical books describing cancer diagnosis and general molecular analytical technologies these books are not focused on cancer detection and diagnosis The aim of this book is to describe emerging cancer detection and diagnosis technologies Key Features Presents myriad new experimental cancer detection technologies Describes technology so the reader may conduct similar analyses Outlines clinical applications of technology for specific cancer and summarizes results Discusses pitfalls and limitations future trends and potential technological developments

Smart Intelligent Computing and Applications, Volume 2 Suresh Chandra Satapathy, Vikrant Bhateja, Margarita N. Favorskaya, T. Adilakshmi, 2022-05-21 The proceeding presents best selected papers presented at 5th International Conference on Smart Computing and Informatics SCI 2020 held at Department of Computer Science and Engineering Vasavi College of Engineering Hyderabad Telangana India during 17 18 September 2021 It presents advanced and multi disciplinary research towards the design of smart computing and informatics The theme is on a broader front focuses on various innovation paradigms in system knowledge intelligence and sustainability that may be applied to provide realistic solutions to varied problems in society environment and industries The scope is also extended

towards the deployment of emerging computational and knowledge transfer approaches optimizing solutions in various disciplines of science technology and healthcare The work is published in two volumes

Computer Science and Education in Computer Science Tanya Zlateva, Rossitza Goleva, 2022-11-02 This book constitutes the refereed post conference proceedings of the 18th EAI International Conference on Computer Science and Education in Computer Science CSECS 2022 held in June 2022 in Sofia Bulgaria Due to COVID 19 pandemic the conference was held On Site and virtually The 15 full papers and 9 short papers were carefully reviewed and selected from 53 submissions The papers present are grouped into 2 tracks i e computer science implementations and education in computer science CSECS conference presents research in software engineering and information systems design cryptography the theoretical foundation of the algorithms and implementation of machine learning and big data technologies Another important topic of the conference is the education in computer science which includes the introduction and evaluation of computing programs curricula and online courses to syllabus laboratories teaching and pedagogy aspects The technical and education topics evolved multiple existing and emerging technologies solutions and services for design and training providing a heterogeneous approach towards delivering Software 4 0 and Education 4 0 to a broad range of citizens and societies
