Getting Science Brian Clegg,2007-04-11 Science is rightly a fundamental part of primary school education but that doesn't make it easy to teach especially for teachers without a science background This straight talking book from an experienced science writer and communicator looks at how to make the most of it and give primary school children a good grounding in the topic Getting Science sets out to engage the sense of wonder The science in this book is not for the children but for the adults who have to explain it Starting with a whirlwind tour of the great milestones of modern science Getting Science goes on to take each of the main curriculum topics and give it a new twist It provides the information needed to understand the key topics better and be able to put them across with enthusiasm and energy This book will help teachers to get children excited by science to understand science rather than just answer questions Getting Science makes science fun approachable and comprehensible to those who just don't get it

8th International Conference on Practical Applications of Computational Biology & Bioinformatics (PACBB 2014) Julio Saez-Rodriguez,Miguel P. Rocha,Florentino Fdez-Riverola,Juan F. De Paz Santana,2014-05-21 Biological and biomedical research are increasingly driven by experimental techniques that challenge our ability to analyse process and extract meaningful knowledge from the underlying data The impressive capabilities of next generation sequencing technologies together with novel and ever evolving distinct types of omics data technologies have put an increasingly complex set of challenges for the growing fields of Bioinformatics and Computational Biology The analysis of the datasets produced and their integration call for new algorithms and approaches from fields such as Databases Statistics Data Mining Machine Learning Optimization Computer Science and Artificial Intelligence Clearly Biology is more and more a science of information requiring tools from the computational sciences In the last few years we have seen the surge of a new generation of interdisciplinary scientists that have a strong background in the biological and computational sciences In this

context the interaction of researchers from different scientific fields is more than ever of foremost importance boosting the research efforts in the field and contributing to the education of a new generation of Bioinformatics scientists PACBB 14 contributes to this effort promoting this fruitful interaction PACBB 14 technical program included 34 papers spanning many different sub fields in Bioinformatics and Computational Biology Therefore the conference promotes the interaction of scientists from diverse research groups and with a distinct background such as computer scientists mathematicians or biologists
