Unfiltered Sophie White, 2020-06-18 White's sharp-eyed take on modern life couldn't be more on target. Irish Independent. All looks perfect for Ali and Shelly. And that's what counts right. But beneath the filters, it's a different story. Ali Jones is dealing with a lot. The fallout from her ill-conceived plan to fake a pregnancy to gain new social media followers, an inbox filled with horrible messages, her ex is still ignoring her. Oh, and she actually is pregnant. For real this time. But as Ali debates trying to salvage her online career as a desperate step to support her baby, Queen of the Influencers Shelly Devine discovers that her mysterious stalker seems to know a shocking amount about the life not shown in her glossy aspirational content, a life Shelly wants to keep hidden. As Ali and Shelly try to figure out how to live their lives online, they start to realise that the lines between fact and fiction are still blurry even for them. And are they in danger of losing the people that matter most.

5-Gen Leadership Mark White, 2021-09-07 An unprecedented leadership challenge for school administrators. Today's school leaders face the unprecedented challenge of leading five generations: Baby Boomers, Generation X, Millennials, and brand new Generation Z teachers, along with Gen Alpha, today's youngest students. Based on extensive research and the author's experience working with thousands of educators and students, 5 Gen Leadership addresses the nuances and expectations implicit with leading each generation. With an emphasis on developing a multi-generational lens through which to view school improvement, this book covers topics such as recruiting and retaining today's young teachers, tailoring professional development for each generation, and helping each generation succeed in a complex, accelerating world. Readers will also find tactics for transitioning to 5 Gen Leadership and understanding the four distinct generations in the teaching staff. Moving leadership styles from a managing model to a coaching model. Advice for understanding and creating a welcoming environment for Gen Z and Gen Alpha. Suggestions for closing the digital generation gaps that emerged during the COVID-19 school closures. A glimpse into the future to imagine how new generations of leaders will help reshape schools by 2030. If we're going to make the most of reforming our schools in the 2020s and keep up with the exponential rate of change in society, we must understand today's students and the four disparate generations in our staffs. This book is critical to help leaders bridge those gaps. How do we prepare today's students for the rapidly changing workplace and society in which they will live, work, and interact in an education system designed for a century that has passed us by. In 5 Gen Leadership: Leading 5 Generations in Schools in the 2020s, Mark White clearly provides a well-lit path to assist educators to successfully make the necessary cultural, structural, and instructional changes that are needed. Bill Daggett, Founder, International Center for Leadership in Education (ICLE).
