How Does Narrow AI Work?

Narrow AI is a kind of smart computer good at doing one or a few jobs. It's not like general AI, which can do a lot of things and act like a human. Narrow AI tries hard to get a particular goal done by using special math tools that help it learn from information. The kind of math tool it uses depends on the job it needs to do and what kind of information it's looking at.

One of those math tools is called machine learning. It works by teaching the smart computer how to use information to make good choices. First, the smart computer looks at some examples of information, then it uses such information to help it decide what to do next.

There are different ways a smart computer can use machine learning. One way is called "supervised learning." This means the smart computer looks at information that's already been sorted into groups, and then it uses such information to sort new things into the right groups too. For example, it might learn how to tell pictures of cats from pictures of dogs.

Another way the smart computer can learn is called "unsupervised learning." This means the smart computer looks at a bunch of information that hasn't been sorted yet, and then it tries to figure out what group things belong to on its own. For example, it might learn how to tell what things people like to buy online.

The third way the smart computer can learn is called "reinforcement learning." This means the smart computer gets feedback on whether it did a good or bad job, and then it learns from that feedback to make better choices next time. For example, it might learn how to play a game by getting points for good moves and losing points for bad moves.

Proceedings of The 5th International Conference on Linguistics and Cultural Studies 5 (ICLC-5 2024) Muhammad Hasyim, Mardi Adi Armin, Yusuf Yusuf, 2025-05-19

This is an open access book. Research and teaching activities in the fields of language literature and culture are still being carried out even during the Covid 19 era that hit the world. It is undeniable that the results of research and learning of language literature and culture at this time were a bit hindered because most activities were carried out from home. During the Covid 19 period which started in early 2020, practically more activities were done at home. Likewise, institutions during the Covid 19 era were carried out online. For example, the Language Agency continues to carry out activities but it is carried out online such as online webinars that contribute to the wider community in accordance with the duties and functions of the Language Agency carried out using a hybrid method or completely online. Various events are packaged creatively and innovatively to produce a new spirit in speaking. Research and teaching of language literature and culture during the Covid 19 period resulted in many amazing innovations and creativity in line with technological developments. Covid 19 has inspired many in research on language literature and culture. In the field of language, you can see research on the language used in Covid 19 such as said cases of suspected respiratory tract infection ODP, People Under Monitoring, confirmed cases, a person who is late known to be infected with Covid 19, etc. That's the content. Content on YouTube about the use of language is a hot object of research to research. In terms of culture, the Government is making various efforts to break the chain of the spread of the Covid 19 pandemic in a massive and systematic manner. Covid 19 is not only a deadly virus but has a domino effect that is also terrible. One of the policies used by the government in preventing and controlling the spread of Covid 19 is implementing the Large Scale Social Restrictions (PSBB) policy. As an investment, culture also requires strategies and enablers so that it is able to achieve the target of the happiness and welfare of the Indonesian people. This strategy is implemented through providing for a diversity of cultural expressions, developing cultural practices, utilizing cultural promotion objects, accelerating institutional reform, and increasing the government's role as a facilitator. Teaching issues, especially teaching methods of language literature and culture, need to be highlighted in terms of IT-based innovation and creativity after Covid 19. How, especially teaching methods in applying the material. Research on learning methods has also been carried out a lot, especially methods that focus on students entering the new normal era or the new era after Covid 19 with innovative research and learning of language literature and culture. It is interesting to reveal a major event, namely the 3rd International Conference on Linguistics and Cultural Studies sponsored by the Faculty of Cultural Sciences, Hasanuddin University, Makassar.
