Hard-to-Teach Science Concepts Susan Koba, Carol T. Mitchell, 2011 Authors Susan Koba and Carol Mitchell introduce teachers of grades 3-5 to their conceptual framework for successful instruction of hard to teach science concepts Their methodology comprises four steps 1 engage students about their preconceptions and address their thinking 2 target lessons to be learned 3 determine appropriate strategies and 4 use Standards based teaching that builds on student understandings The authors not only explain how to use their framework but also provide a variety of tools and examples of its application on four hard to teach foundational

concepts the flow of energy and matter in ecosystems force and motion matter and its transformation and Earth's shape Both preservice and inservice elementary school teachers will find this approach appealing and the authors engaging writing style and user friendly tables help educators adapt the method with ease

The Internet of Women - Accelerating Culture Change Nada Anid, Monique J. Morrow, Laurie Cantileno, 2022-09-01 Female scientists technologists engineers and mathematicians worldwide are making historic contributions to their fields The modern workforce is closer to gender equal than it has ever been and many efforts are in place to support further progress The Internet of Women provides an exciting look at personal narratives and case studies of female leaders and cultural shifts around the globe that illustrate this promising trend From the United Nations emphasis on girls and technology education in the SDGs Sustainable Development Goals to the increased female labor force in Zambia a policy change that was inspired by the MDGs UN Millennial Development Goals The Internet of Women captures stunning examples of progress from around the world and men working hand in hand with women advocating for cultural change Scholars and practitioners lament the lack of women leading and working in leading organizations in the technology industry Gender equality and female participation in the tech field is critical to both developing and developed economies nevertheless this gap remains a global phenomenon The lack of female leadership is particularly extreme at the highest echelons of leading technology organizations Few publicly traded tech companies have female CEOs in fact most nations have zero female leadership in the tech industry This gap does indicate a slow pace of progress for gender equality in tech employment Women's pay still lags nearly a decade behind according to the World Economic Forum meaning that women's on average pay today is the equivalent to that of similarly qualified and similarly employed men in 2006 Without significant progress the current rate of change will not lead to parity for 118 years according to the World Economic Forum WEF However there's significant work being done to shift this tide Take for instance Michelle Lee the first female Under Secretary of Commerce for Intellectual Property and Director of the United States Patent and Trademark Office USPTO reflects on her childhood Girl Scout badge in sewing and cooking and how that memory inspired to create an IP badge that exposes young women to the process of invention Social entrepreneur investor and Malala Fund co founder Shiza Shahid shares her efforts beginning from mentoring young women in Pakistan to her current work directing more investment to women innovators around the globe And Elizabeth Isele a senior fellow in Social Innovation at Babson College shares her research on women and ageism saying we need to retire the word retirement The book is divided into six parts each with unique areas of focus Millennials Leading Exploring Challenges and Opportunities Facing the Next Generation of Women in Technology Men and Women Empowering One Another Bold Leadership Women Changing the Culture of Investment and Entrepreneurship Educating for the 21st Century Breaking the Glass Ceiling A Generation of Women Forging into Technology Leadership Emerging Fields of Technology The Internet of Women gathers examples about the increasingly inclusive and progressive gender culture in technology from over 30 countries Stories range

from an entrepreneur in Dubai partnering with private and public sector entities to accelerate blockchain technology to a young British woman moving to Silicon Valley to launch an artificial intelligence platform and incubator The book is intended for corporations academic institutions the private sector government agencies gender experts and the general public and its key benefit is to let the reader understand a path towards implementing diversity overall globally It also showcases the strategies tools and tactical execution on how create cultural change in all parts of the world Popular Science ,1956-02 Popular Science gives our readers the information and tools to improve their technology and their world The core belief that Popular Science and our readers share The future is going to be better and science and technology are the driving forces that will help make it better
