Dracula: The Legend Lives Drac Von Stoller, Nestled deep in the woods along a wooded path is an abandoned century old crypt in an ancient castle that two girls will stumble upon curiosity gets the best of them but they will never live to tell about it It all started when these two friends Alicia and Mary Beth accepted a dare to see if the legend of Drac Von Stoller the prince of darkness was fiction or fantasy The two girls thought it was a joke and laughed all the way out the door off to what they thought was a waste of time to a night of terror There was one stipulation about the dare and if they didn't abide by it they would be humiliated at school the next day The stipulation was that they had to go at sundown and take nothing with them but themselves and a flashlight Just to make sure the two girls arrived at their destination at sundown the other girls that made the dare drove them to their destination and spent the night in the car to await their arrival with the news of their findings Alicia and Mary Beth peered out their passenger windows in the back seat of the car and the fear of the unknown was starting to set in as the sun was dropping rapidly off in the distance but they made a dare and they were not about to back out now and be the laughing stock of their classmates the next morning The car arrived at the right moment as darkness filled the sky Alicia and Mary Beth looked at each other with fear in their eyes but suppressed their fear and turned

to the other girls in the front seat of the car and gave their best performance of courage grabbed their flashlights and said let us go check out this fictitious legend and put it to rest once and for all and have the last laugh One of the girls in the car yelled out as Alicia and Mary Beth headed off into the woods You just might want to take a cross and a stake with you in case you see a vampire the girls in the car laughed hysterically as Alicia and Mary Beth entered the woods with the unknown just moments away As Alicia and Mary Beth got deeper into the woods the wind was picking up and thunder could be heard off in the distance These two girls were on a mission and just kept pressing forward and hurried in hopes this would all be over soon and they could get back home and never come back to these woods again whether or not it was all made up As the girls were walking more in depth into the woods Alicia said Do you see what I m seeing Mary Beth replied Yes I do It s an ancient castle Why don t we go back and get the girls and investigate a little further Before Alicia could get off the ground a tall dark figure appeared out of nowhere As the figure stood in front of her he said Are you looking for me **Playing with Media**

Planet Google Randall Stross,2008-09-23 Based on unprecedented access he received to the highly secretive Googleplex acclaimed New York Times columnist Randall Stross takes readers deep inside Google the most important most innovative and most ambitious company of the Internet Age His revelations demystify the strategy behind the company s recent flurry of bold moves all driven by the pursuit of a business plan unlike any other to become the indispensable gatekeeper of all the world s information the one stop destination for all our information needs Will Google succeed And what are the implications of a single company commanding so much information and knowing so much about us As ambitious as Google s goal is with 68 percent of all Web searches and growing profits that are the envy of the business world and a surplus of talent the company is Stross shows well along the way to fulfilling its ambition becoming as dominant a force on the Web as Microsoft became on the PC Google isn t just a superior search service anymore In recent years it has launched a dizzying array of new services and advanced into whole new businesses from the introductions of its controversial Book Search and the irresistible Google Earth to bidding for a slice of the wireless phone spectrum and nonchalantly purchasing YouTube for 1 65 billion Google has also taken direct aim at Microsoft s core business offering free e mail and software from word processing to spreadsheets and calendars pushing a transformative and highly disruptive concept known as cloud computing According to this plan users will increasingly store all of their data on Google s massive servers a network of a million computers that

amounts to the world's largest supercomputer with unlimited capacity to house all the information Google seeks. The more offerings Google adds and the more ubiquitous a presence it becomes, the more dependent its users become on its services and the more information they contribute to its uniquely comprehensive collection of data. Will Google stay true to its famous 'Don't Be Evil' mantra, using its power in its customers' best interests? Stross's access to those who have spearheaded so many of Google's new initiatives, his penetrating research into the company's strategy and his gift for lively storytelling produce an entertaining, deeply informed and provocative examination of the company's audacious vision for the future and the consequences not only for the business world but for our culture at large. *Brilliant Windows* 7 Steve Johnson, 2010.
