Becoming One Community Kathleen Fay, Suzanne Whaley, 2004 More and more classrooms across the country are filled with children who speak languages other than English In these diverse classrooms many teachers struggle with how to create reading and writing instruction that is appropriate for their English language learners In *Becoming One Community* Kathleen Fay and Suzanne Whaley provide expert guidance on helping students who are just learning English develop their voice and skills within reading and writing workshops JoAnn Portalupi Written for the general classroom teacher whose class includes English language learners ELLs as well as for ELL teachers working in general classrooms this book portrays ELL students in grades 3-6 who learn essential reading and writing skills and are full members of the classroom community Throughout the book Kathleen and Suzanne emphasize the importance of talk By talking during science workshop after read aloud or when sharing an idea with a partner ELLs use language authentically and in using it become more adept speakers readers and writers of English Included are classroom scenes with dialogue in whole class and small group settings authentic one on one conferences with readers and writers at varying levels of English language proficiency reflection by the teachers before during and after teaching scenarios from inclusive classrooms and descriptions of teachers' decisions which enable them to be successful learning environments This is not a quick how to guide *Becoming One Community* provides many practical examples of diverse classrooms at work and embeds theory on English language development throughout It gives teachers a repertoire of ideas to meet the needs of ELL students in their classroom but ultimately trusts in the teacher's own skills to best know their students and appreciate their innate intelligence *Becoming a High Expectation Teacher*

Christine Rubie-Davies, 2014-08-13 We constantly hear cries from politicians for teachers to have high expectations But what this means in practical terms is never spelled out Simply deciding that as a teacher you will expect all your students to achieve more than other classes you have taught in the same school is not going to translate automatically into enhanced achievement for students *Becoming a High Expectation Teacher* is a book that every education student training or practising teacher should read It details the beliefs and practices of high expectation teachers teachers who have high expectations for

all their students and provides practical examples for teachers of how to change classrooms into ones in which all students are expected to learn at much higher levels than teachers may previously have thought possible. It shows how student achievement can be raised by providing both research evidence and practical examples. This book is based on the first ever intervention study in the teacher expectation area designed to change teachers' expectations through introducing them to the beliefs and practices of high expectation teachers. A holistic view of the classroom is emphasised whereby both the instructional and socio-emotional aspects of the classroom are considered if teachers are to increase student achievement. There is a focus on high expectation teachers: those who have high expectations for all students and a close examination of what it is that these teachers do in their classrooms that mean that their students make very large learning gains each year. *Becoming a High Expectation Teacher* explores three key areas in which what high expectation teachers do differs substantially from what other teachers do: the way they group students for learning, the way they create a caring classroom community and the way in which they use goalsetting to motivate students to promote student autonomy and to promote mastery learning. Areas covered include: Formation of teacher expectations; Teacher personality and expectation; Ability grouping and goal setting; Enhancing class climate; Sustaining high expectations for students. *Becoming a High Expectation Teacher* is an essential read for any researcher, student trainee or practicing teacher who cares passionately about the teacher-student relationship and about raising expectations and student achievement. [The Daily 5](#) Gail Boushey, Joan Moser, 2006. Do you love teaching but feel exhausted from the energy you expend cajoling, disciplining and directing students on a daily basis? Are you questioning the value of busy work but afraid that ceasing from such activities will lead to chaos in the classroom? Have you heard the phrase "work smarter, not harder" but don't have a clue how to start? If so, you'll want to meet The Sisters, Gail Boushey and Joan Moser. They set about designing a structure that would ensure all children were working at their level of challenge while taking responsibility for their learning and behaviour and that would provide meaningful instruction blocks without extensive preparation time for teachers. Thus the Daily Five was born. Based on literacy learning and motivation research, the Daily Five has been practiced and refined in their own classrooms for 10 years and shared with thousands of teachers throughout the United States. The Daily Five is a series of literacy tasks: reading to self, reading with someone, writing word work and listening to reading, which students complete daily while the teacher meets with small groups or confers with individuals. *A New Start Series Boxed Set: Books 1-5* Charlene Carr, 2017-05-25.
