The authors integrate a research-focused information behavior approach with a literature-focused resources approach and bring together in one volume key issues related to research theory and practice in the provision of information services to young adults. Currently, no single book addresses both YA information behaviors and information resources in any detail; instead, books tend to focus on one and give only cursory attention to the other. Key features of this revolutionary book include its success in integrating theory, research, and practice; integrating implications for practice throughout the book; integrating knowledge of resources with professional practice as informed by research; integrating both print and electronic formats throughout within the resource chapters, including websites and social media. Latham and Gross accomplish all this while paying particular attention to the socially constructed nature of young adulthood, diversity, YA development, and multiple literacies. Their coverage of information landscapes covers literature with detailed coverage of both genres and subgenres, movies, magazines, web sites, social media, and gaming. The final chapter covers navigating

information landscapes focusing on real and virtual YA spaces readers advisory programming and collaboration Special attention is paid to program planning and evaluation

The Rosetta Man Claire McCague, 2015-11-29. Wanted Translator for first contact. Immediate opening. Danger pay allowance. Estlin Hume lives in Twin Butte, Alberta, surrounded by a horde of affectionate squirrels. His involuntary squirrel attracting talent leaves him evicted, expelled, fired, and near penniless until two aliens arrive and adopt him as their translator. Yanked around the world at the center of the first contact crisis, Estlin finds his new employers incomprehensible. As he faces the ultimate language barrier, unsympathetic military forces converging in the South Pacific keep threatening to kill the messenger. The question on everyone's mind is why are the aliens here? But Estlin's starting to think we'll happily blow ourselves up in the process of finding that out. What makes *The Rosetta Man* stand out? An unusually dense squirrel population for sci-fi. It's light-hearted, accessible sci-fi with exotic present-day settings and a pair of aliens who are focused on observing the revealing chaos their visit creates.
