It delivers comprehensive training, the equivalent of a three-day course in one project-based book. With complete coverage of Aperture's new features, you'll learn to organize your photos using Faces, Apple's face detection and recognition tool; take advantage of Places to find photos by the location where they were shot; and retouch your images precisely with new nondestructive edge-aware brushes. You'll create advanced slideshows that include HD videos, titles and layered soundtracks, and with the full-screen Browser you'll now be able to use every inch of your Mac display to browse and edit. Real-world exercises feature professional photography from a variety of genres, including fashion, sports, wedding, commercial and landscape photography. DVD-ROM includes lesson and media files for over 20 hours of training. Focused lessons take you step by step through professional real-world projects. Accessible writing style puts an expert instructor at your side. Ample illustrations and keyboard shortcuts help you master techniques fast. Lesson goals and time estimates help you plan your time. Chapter review questions summarize what you've learned and prepare you for the Apple Certified Pro Exam. All of Peachpit's eBooks contain the same content as the print edition. You will find a link in the last few pages of your eBook that directs you to the media files. Helpful tips: If you are able to search the book, search for "Where are the lesson files." Go to the very last page of the book and scroll backwards. You will need a web-enabled device or computer in order to access the media files that accompany this eBook. Entering the URL supplied into a computer with web access will allow you to get to the files. Depending on your device, it is possible that your display settings will cut off part of the URL. To make sure this is not the case, try reducing your font size and turning your device to a landscape view. This should cause the full URL to appear.
