Midst Alarms Robert Barr:

Siren City William Romaine Paterson, 1899 **Twenty Years in the Near East** Ardern George Hulme-Beaman, 1898
Autobiography of a British consul at Constantinople Damascus Cairo and other postings in Eastern Europe and the Middle East Hulme Beaman discusses the difficulties faced in his career international tensions legal troubles extralegal executions cultural misunderstandings disease outbreaks etc as well as friendly episodes with the people he lived and worked with His topics range from class conflict in Serbia to bear hunting warfare in Crete publishing his own newspaper the Times of Egypt English foreign policy and trout fishing **Miss Erin** M. E. Francis, 1898 **The Downfall of the Dervishes** Sir Ernest Nathaniel Bennett, 1899 *A History of Egypt Under the Ptolemaic Dynasty* John Pentland Mahaffy, 1899 **With the Mounted Infantry and the Mashonaland Field Force, 1896** Sir Edwin Alfred Hervey Alderson, 1898 **The Seven Seas** Rudyard Kipling, 1899 *A History of Egypt* William Matthew Flinders Petrie, 1898 *University and Social Settlements* Will Reason, 1898 **From the East Unto the West** Jane Barlow, 1898 *The Spectator*, 1895 **A Book of the West I** S. Baring-Gould, 2016-08-11 In this Book of the West I have not sought to say all that might be said relative to Devon and Cornwall nor have I attempted to make of it a guide book I have rather endeavoured to convey to the visitor to our western peninsula a general idea of what is interesting and what ought to attract his attention The book is not intended to supersede guide books but to prepare the mind to use these latter with discretion In dealing with the history of the counties and of the towns it would have swelled the volumes unduly to have gone systematically through their story from the beginning to the present it would moreover have made the book heavy reading as well as heavy to carry I have chosen therefore to pick out some incident or some biography connected with the several towns described and have limited myself thereto My object then must not be misunderstood and my book harshly judged accordingly There are vi ten thousand omissions but I venture to think a good many things have been admitted which will not be found in guide books but which it is well for the visitor to know if he has a quick intelligence and eyes open to observe In the Cornish volume I have given rather fully the stories of the saints who have impressed their names indelibly on the land It has seemed to me absurd to travel in Cornwall and have these names in the mouth and let them remain nuda nomina They have a history and that is intimately associated with the beginnings of that of Cornwall But their history has not been studied and in books concerning Cornwall most of the statements about them are wholly false I have not entered into any critical discussion concerning moot points I have left that for my Catalogue of the Cornish Saints that is being issued in the Journal of the Royal Institution of Cornwall There are places that might have been described more fully others that have been passed over without notice *Household News*, 1895 **Athenaeum and Literary Chronicle**, 1895 **The Athenaeum**, 1895 *Evolution* F. B. Jevons, 2022-09-16 In *Evolution* F B Jevons embarks on a profound exploration of the intersection between philosophy science and economics examining how evolutionary theory influences various aspects of human experience Written in the late 19th century during a

period marked by rapid scientific advancements and intellectual ferment Jevons employs a clear and analytical style that synthesizes complex ideas into accessible prose The text delves into the implications of Darwinian thought not merely as a biological principle but as a framework that encompasses social and economic evolution positioning it within the broader discourse of progress and human development F B Jevons was a noted economist and philosopher whose works significantly contributed to the fields of utility and marginalism His background in both the sciences and the humanities informed his multidisciplinary approach as he sought to integrate insights from various domains into his economic theories This holistic perspective paired with his keen observations of societal shifts motivated him to articulate a vision of evolution that resonated with contemporary intellectual currents while anticipating future debates around the concepts of change and adaptation Evolution is essential reading for anyone interested in the philosophical underpinnings of modern thought Jevons insights not only illuminate the prevailing ideas of his time but also challenge readers to consider the ongoing relevance of evolutionary frameworks in understanding contemporary issues This text is a valuable resource for scholars and enthusiasts alike promising to enrich one's understanding of the intricate relationship between evolution society and economics
