

Rotate each locking handle outward until lock hook lever is fully engaged with striker on windshield header and handle is parallel with the side roof rail.

NOTE: Be sure top is securely locked to windshield header before starting car in motion.

Turn Signals and Lane Change Feature

The turn signal lever is located on the left side of the steering column immediately under the steering wheel. The lever is moved

upward to signal a right turn and downward to signal a left turn. Lamps on the front and rear of the car transmit this signal to other motorists and pedestrians. The ignition switch must be in the "ON" position in order for the turn signals to be operational. This feature prevents battery drain if the lever is left in an "ON" position when your car is not in use.

In a normal turning situation such as turning a corner, the turn signal is canceled automatically after the turn is completed. However, in some driving maneuvers such as changing lanes on an expressway, the steering wheel is not turned back sufficiently after completing the turn to automatically cancel the turn signal. For convenience in such maneuvers the driver can flash the turn signals by moving the turn signal lever part way and holding it there. The lever returns to the neutral or canceled position when the driver releases his hold on the lever.

A green light on the instrument panel flashes to indicate proper operation of the front and rear turn signal lamps. If the indicator lamp remains on and does not flash, check for a defective signal lamp bulb. If the indicator fails to light when the lever is moved, check the fuse and indicator bulb.

Hazard Warning Flasher

In the event your car is disabled or you stop for any reason on the highway, the four-way hazard warning flasher system on your vehicle, front and rear signal lamps, should be used to warn other drivers that your vehicle is a traffic hazard. However, you should do everything possible to avoid stopping on the actual highway.

CAUTION: Use of the hazard warning flasher while the vehicle is moving is prohibited in some states.
