Using Asset-Based Teaching for Grades 6-12 Michael D. Steele,Joleigh Honey,2024-07-19 Foster a love of mathematics by
creating a more inclusive and empowering learning environment through asset based teaching An asset based perspective on
math education means starting with what students already know instead of focusing on what s missing This approach
elevates student thinking and reasoning skills In this way educators acknowledge that all students bring prior experiences
strengths talents and resources to the learning process and can contribute meaningfully in an authentic learning
environment Transform Your Math Class Using Asset Based Teaching for Grades 6 12 provides insight into asset based
perspectives in mathematics education to create an environment where all students feel valued and capable of being doers of
mathematics In the book Michael Steele and Joleigh Honey highlight the importance of using language instructional routines
and systemic structure that positively impact student engagement their math identity and ultimately their outcomes
Providing a wealth of knowledge and practical strategies that can be used to transform math classrooms into inclusive
supportive and empowering learning environments this book Introduces an asset based perspective that focuses on students
strengths assets and potential to learn mathematics Includes a variety of frameworks and tools that teachers can use to build
and grow their sense of asset based perspectives Offers strategies for promoting a growth mindset in mathematics
encouraging productive struggle in math and promoting equitable math instruction Supports teachers in reflecting on their
decisions self awareness and self management Includes a companion online study guide to support teachers individually or as
part of a professional learning community Adopting asset based perspectives is about movement over time not about flipping
a switch This book paves the path for an asset based journey that ultimately helps to transform our math classrooms and
advance all students learning and development About Teaching Mathematics Marilyn Burns,2007 A compendium of more
than 240 classroom tested lessons this essential resource helps teachers build student understanding and skills and
understand how children best learn math In this third edition Marilyn Burns has completely revised the first section to reflect
what she has learned over the years from her classroom experience with students and her professional development
experience with teachers This section has also been expanded to address these important topics teaching math vocabulary
incorporating writing into math instruction linking assessment and instruction and using children s literature to teach key
math concepts In an entirely new section Marilyn addresses a wide range of questions she has received over the years from
elementary and middle school teachers regarding classroom management and instructional issues Handbook of
