Becoming a Family Lark Eshleman, 2005-08-31 It is a story that moves us to tears An American couple travels across the world to rescue a child from the hopelessness of a foreign orphanage bringing their new son or daughter to a life of love and family But does this transition always go smoothly Adoptive parents hope their child will easily fit into the family and quickly become emotionally connected to the parents or siblings But child psychologists and adoption experts say this connection is the most difficult aspect of international adoption In countries where international adoptions are common China Russia or Romania orphanages commonly represent the available children to their new parents as healthy kids who just need a little love In many cases this is a gross misrepresentation Children who spend time in institutionalized care may have experienced trauma and therefore may not attach easily to their new family Parents anxious to bring these children into their homes and their hearts struggle seriously with this issue Although these children will eventually adapt in a healthy fashion the road to emotional health and harmony can be a rocky one Becoming a Family tackles this intricate issue head on It provides parents with effective strategies for ensuring that their adopted child adjusts as quickly and seamlessly as possible Practical and accessible this book will help parents identify severe problems before the adoption significantly reduce the risk of future difficulty improve the damage already done to the child's otherwise normal healthy development and dramatically help enfold the child into a family ready to give love security and a new life

Wong's Nursing Care of Infants and Children Australia and New Zealand Edition - For Professionals Lisa Speedie, Andrea Middleton, 2021-11-09 This new text has been adapted from the highly trusted Wong's Nursing Care of Infants and Children to provide a reference for professional nurses working in paediatric and child and family health settings in Australia and New Zealand The content covers all aspects of infant child and adolescent care including anatomy and physiology child and adolescent mental health nursing care guidelines critical thinking family centred care rural and remote health cultural and psychosocial considerations common presenting conditions and therapeutic management With input from leading local expert paediatric clinicians and academics and carefully curated for practising paediatric nurses and nurses

newly entering paediatrics the text aligns with local professional standards health policies legal and ethical considerations and population data Well established comprehensive text that focuses on clinical relevance for professional nurses Covers all aspects of infant child and adolescent health through an assessment and management approach Foundational information builds a solid knowledge base in paediatric nursing Written to help nurses develop a deeper understanding of the psychosocial needs of infants children adolescents and their families Case studies and research questions to build critical thinking skills Aligned to National Safety and Quality Health Service NSQHS Standards User friendly accessible content suitable for practising paediatric nurses across a variety of clinical settings and geographic locations

Organisational Psychology in Australia and New Zealand Michael P. O'Driscoll, Paul J. Taylor, Thomas Kalliath, 2003 Organisational psychology also known as industrial and organisational I/O psychology is a dynamic and pervasive field within the general discipline of psychology Organisational psychology focuses on people attitudes values and behaviours in the domain of work especially within organisational settings such as private businesses government organisations the military and so on The field covers a very wide range of issues ranging from the selection of individual people for specific jobs through to the management of large scale organisational change and development Organisational psychologists therefore contribute to a broad array of processes and functions within organisations While many textbooks relating to organisational psychology are available almost all of these have been developed in either the United States or the United Kingdom and hence refer to conditions applying predominantly in those countries Consequently although much of the theory and research described in these texts is of a general nature there is some lack of direct practical relevance to Australian and New Zealand conditions Furthermore the considerable amount of research conducted within these two countries is frequently overlooked in other international texts The purpose of this textbook is therefore to provide a coverage of essential topics in the field of organisational psychology as far as possible to introduce research illustrations from Australia and New Zealand as well as international research in each topic area and incorporate Australian and New Zealand examples and case studies to illustrate the local relevance of theory and research Each chapter contains a practice illustration and a case study relating to either Australia or New Zealand Questions for discussion at the end of each chapter will focus on issues that are directly relevant to students in these two countries

Future Network Systems and Security Robin Doss, Selwyn Piramuthu, Wei Zhou, 2019-10-28 This book constitutes the refereed proceedings of the 5th International Conference on Future Network Systems and Security FNSS 2019 held in Melbourne Australia in November 2019 The 16 full papers and two short papers presented were carefully reviewed and selected from 38 submissions The papers are organized in topical sections on emerging networks and applications security privacy and trust and security analytics and forensics
